ADMINISTRATOR'S NOTICE TO CREDITORS.

In the matter of the estate of Nicholas Jordan late of the Township of Richmond, in the County of Lennox and Addington, Yeoman, deceased.

Notice is hereby given pursuant to Chapter 110, Section 86, of the Revised Statutes of Ontario 1897, that all creditors having claims against or liens upon the estate of Nicholas Jordan, late of the Township of Richmond, yeoman, deceased, who died on or about the 28th day of December, 1892, are required to send by post prepaid or deliver to Messrs. Deroche & Madden, of the town of Napanee, in the county of Lennox and Addington, Solicitors for Catharine Jordan, administratrix of all and singular the estate and effects of the said Nicholas Jordan, deceased, on or before the 24th day of March, 1893, their names and addresses with descriptions of their claim and particulars thereof duly verified by affidavit, and the nature of the securities, if any, held by them.

And notice is hereby further given that on and after the said date the said Administratrix will proceed to distribute the assets of the said Nicholas Jordan, deceased, among the parties entitled thereto, regard being had only to the claims of which notice has been given as above required, and the said Administratrix will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by said administratrix duly verified as above at the time of distribution.

Yours, etc.,

DEROCHE & MADDEN,

Solicitors for Catharine Jordan, the above named administratrix.

Dated Napanee, Feb. 22nd, 1893.

NEWS FROM THE COUNTRY

CENTREVILLE WEST.

The winter has so far been very cold with only two slight thaws, and there is every promise of being deep snow, as nothing but snowdrifts catch the eye at present, there also, being about four feet on the level. Business has been greatly retarded.

Mr. E. H. Perry is at present visiting friends near Cloyne.

Midnight wanderers still roam our streets. We think the county should provide for such people and "the sooner the better."

Surprise parties are a thing of the past, it is hoped—forever.

Several slight contracts have been taken recently by new contractors.

The school house is still undergoing changes. All for the better.

Mr. James Lorent returned to his home on the 17th.

Mr. M. J. Lochhead spent Saturday in town.

We are glad to notice Mr. E. J. Perry in our midst once more, after having been laid up with sore hands for the past couple of weeks.

Lochhead Bros. are hauling a large amount of cedarwood to Thompsonville, and for this purpose have engaged a large number of assistants.

Several farmers from around here attended a sale held near Centreville on the 21st, and report prices as being dull. No wonder, when they don't get anything for the produce they have to sell, they therefore cannot be expected to pay large prices for that which they would be willing to purchase.

—Business men sending out accounts will find a full stock of bill heads, state ments, etc., at the Express office. Don't send out your accounts on a sheet of dirty, greasy paper, with a rubber stamp impression in the corner. We do the best work, and our prices are low as the lowest.

NAPANEE MILLS.

Not much snow and no weather to speak of.

Mr. Alf. Bruton, of Drayton, South Dakota, is spending the winter with his parents.

A load from Moscow of old and intimate friends of Mrs. L. Lott, composed of Mr. and Mrs. W. Asselstine, Mr. and Mrs. D. Garrison, Mr. and Mrs. S. Johnson and Mr. and Mrs. M. Storms spent a most enjoyable evening with her last week.

On Thursday death removed a handsome little boy from the home of Mr. Garrison. Much sympathy is felt for the parents in their bereavement and afflictions during the whole winter.

Mrs. Hooper has been summoned to attend her sick sister at Deseronto, whose mother was called to the death-bed of another son dying of consumption.

While lying on his couch he had to take the last look upon the faces of his three children, who succumbed to diphtheria. This is almost unparalleled bereavement.

Mr. Geo. Stinson and estimable bride intend taking up their abode in our midst. Everyone says "welcome." George is a first-class carpenter, and wins respect and popularity wherever he goes.

On Friday, March 10th, the Young Ladies' taffy pull will be a sweet thing to look forward to. The ladies intend to do the whole business, attend the door, take the chair, give the programme, drive for the gentlemen, pay their fare, and dish up the taffy to them, made from real genuine maple.

to insure, as the Equitable is the strongest company in the world.

We are sorry to say that Samantha has been suffering this past week with toothache. She says it is more severe than lumbago.

Mr. Wm. Herberts, we are sorry to say is suffering from a severe cold. Will is one of those men that don't often catch a cold, but it stays there when he catches it.

Mr. Edward Wright is laying down lumber for a new silo. Ed believes in stock raising.

Charley has purchased a new violin. He intends furnishing music for the dances free this winter.

A concert will be given in the town hall, South Fredericksburgh, in behalf of the Presbyterian church, Sandhurst, on Thursday, 2nd March. Let every young man come and bring his best girl.

Sunday last was a holiday as there was no church on the front.

It is a rather strange time for a young man to be seeking May flowers.

Miss Anna Clapp is home attending her mother, who met with an accident by falling on the ice.

Miss Taverner, our music teacher, has been away spending a few days with friends. Her pupils wish for her speedy return.

Our enterprising fishermen are meeting with great success. Bill and Tom always takes the lead in securing the large ones.

We are pleased to see that Miss Lily Clute has returned. We are glad to see you Lily.

Mr. W. T. Ham, our worthy reeve, is breaking a span of colts. They are dandies.

POLLY.

It has no Equal.

DEAR SIRS,—I have used your Hay-yard's Yellow Oil for many years, and have found it unequalled for burns, scalds, cuts, etc.

MARY A. COLLETT, Lill, Ont.

BATH.

Our local sports are enjoying the good ice and fine days in training their trotting stock. Dr. Kennedy's trotting horse "Goldie" was to have been entered in the Kingston races, but, while training last week had a severe fall, cutting himself in such a manner as will prevent him doing any further training this season.

Robt. Mott, our enterprising harness maker, is in Toronto this week buying his spring stock of goods. He expects to purchase a ton of harness leather. He will visit in this trip the towns of Havelock and Tweed, where he holds branch industries. Mr. Mott now employs quite a staff of men, and expects during the coming season to launch out into deeper waters and open out a thoroughly equipped harness factory, which will be erected during the summer.

Our veterinary surgeon, Dr. W. M. Nichols, has left us to take a practice in Kingston, where he will succeed Dr. W. Fleming, whose failing health makes it necessary for him to seek a warmer climate.

MORTEN.

Although our section of country is blessed with plenty of the beautiful translucent white carpet and enough cool weather to cool the ardor of the most immoderate politician, still intense excitement prevails over the new cheese factory question and the proposed factory to be built in the neighborhood of the York road hills well to become the most successful.

Some real estate near the town line

Published by the Proprietor, at Napanee, Feb. 22nd, 1893.

Incorporated 1887, with Cash Capital of \$50,000

THE OWEN

ELECTRIC BELT

AND APPLIANCE CO.

49 KING ST. W., TORONTO, ONT.

G. C. PATTERSON, Mgr. for Canada.

Electricity, as applied by the Owen Electric Belt,

Is now recognized as the greatest boon offered to suffering humanity. It is fast taking the place of drugs in all nervous and rheumatic troubles, and will effect cures in seemingly hopeless cases where every other known means has failed. It is nature's remedy, and by its steady, soothing current it is readily felt.

POSITIVELY CURES

Rheumatism, Sexual Weakness, Sciatica, General Debility, Lumbago, Impotency, Nervous Diseases, Kidney Diseases, Dyspepsia, Liver Complaint, Varicocele, Urinary Diseases.

RHEUMATISM

It is a well known fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although Electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of nature's forces.

TO RESTORE MANHOOD

Thousands of people suffer from a variety of nervous diseases, such as Seminal Weakness, Impotency, Lost Manhood, Weak Back, etc., that the old modes of treatment fail to cure. There is a loss of nerve force or power that cannot be restored by medical treatment, and any doctor who would try to accomplish this by any kind of drugs is practising a dangerous form of charlatanism. Properly treated

THESE DISEASES CAN BE CURED

Electricity, as applied by the Owen Electric Belt and Suspensory, will most assuredly do so. It is the only known remedial agent that will supply what is lacking, namely, nerve force or power, impart tone and vigor to the organs and arouse to healthy action the whole nervous system.

BEWARE OF IMITATIONS

And the worthless, cheap, so-called Electric Belts advertised by some concerns and peddled through the country. They are electric in name only, worthless as a curative power, and dear at any price.

We Challenge the World to show an Electric Belt where the current is under control of the patient as completely as this.

Our Trade Mark is the portrait of Dr. J. W. Thomas, which is used upon every Belt and appliance manufactured by us.

Send for Catalogue—Mailed (Sealed) Free.

THE OWEN ELECTRIC BELT CO., 49 King St. W., Toronto.

Mention this paper.

TREES AND FLOWERS.

Vanilla is an orchid, which, in the West Indies, creeps over trees and walls like ivy. A substance called "salsep," somewhat resembling arrowroot or sago, is obtained from the tubers of a variety that grows in Turkey and Persia, where it is highly esteemed.

At Cologne there is a rose tree which is believed to be 300 years old, and has a trunk of four feet in circumference. California has one at Ventura which is now three feet in circumference at the ground. It was only planted in 1876, and now covers 2,000 square feet.

The orange growers of southern California are reaping a rich harvest, and the total yield will probably amount to 7,000 car loads. Buyers are paying \$3.25 a box for the best fruit delivered at the railroad station, which means a return of from \$500 to \$800 an acre for groves that are over eight years old.

A new luminous fungus has been forwarded from Tahiti to Europe. It is said to emit at night a light resembling that of the glowworm, which it retains for a period of twenty-four hours after having been gathered. It is used by native women in bouquets of flowers for personal adornment in

interests as to unduly enhance the prices of many such articles as are indispensably necessary to farmers in carrying on the business in which they are engaged. Your memorialists, therefore, pray that your honorable body would be pleased to take the matter into consideration during this session, and to cause the import duties imposed upon coal oil, binder twine, corn and all wire used for fencing purposes to be removed, and these articles placed upon the free list."

The petitions against combinations and monopolists, signed by 14,207 recited this statement: "That the farmers and laborers are the great producers of wealth of this country; that the farmers and laborers are not in as prosperous a condition as we would desire; that farmers and laborers are materially affected by prices of the manufactures and commercial commodities of this country; that manufacturing and commercial enterprises being generally restricted and requiring large amounts of capital in their prosecution, prevent general engagement therein, and thus to a great extent render those engaged in such enterprises recipients of public trust; that combination or association of those engaged in manufactures and commercial enterprises tends to stimulate and place the control of prices of manufactured and commercial articles with such combination or association; your memorialists therefore respectfully pray:

1. That the act known as an act for the prevention and suppression of combinations formed for the restraint of trade be so amended that it be a criminal offense for any person to conspire, combine or associate in anywise, or to do any act for the purpose, or thereby, or when the tendency thereof would be to control the price of any manufactured or commercial article.

2. That the government take such matters into consideration, and do not grant incorporation to any combination or association of persons when the effect thereof would seem in their wisdom detrimental to the welfare of the country.

3. That it be the duty of the County Crown Attorney to prosecute any incorporated body or association of persons in default therein on the complaint of any corporation.

These 27,000 odd protests against the Government's policy are but an instalment of what is to come from the Patrons of Industry, whose cause Mr. McCarthy has taken up.

Reduced to a Science.

The treatment of disease is now almost reduced to a science. A scientific product of medical skill for the cure of all blood diseases from a common pimple to the worst scrofulous sores, which has held popular esteem for years and increases steadily in favor is Burdock Blood Bitters.

PRESIDENT Harrison has revoked the tolls levied on Canadian vessels in Sault Ste. Marie canal, in consequence of the Dominion government abolishing the discrimination against American vessels passing through Canadian waters.

—All ages and conditions of people may use National Pills without injury and with great benefit.

—Destroy the Worms or they may destroy the children. Worm Powders destroy and expel all kinds of worms.

Mr. Calvin (Frontenac) announced in the house last night during the budget debate that he would vote against the government on the tariff reform question.

Endorsed by the Leaders.

When a remedy is endorsed by ministers, editors, merchants, farmers and leading men of all classes it is almost a guarantee that the medicine has great merit and does what is claimed for it. Such a remedy is Burdock Blood Bitters its wonderful success as a cure for Dyspepsia, bad blood, etc., is well known to young and old.

Balmoral Bulletin.

Sirs,—I had a troublesome cold which nothing would relieve until I tried Hagar's Pectoral Balm, and I am glad to say that it completely cured me.

their rate, and then up to the tally to them, made from real genuine maple sugar. J. I. Armstrong brings the sugar from Montreal, and will impose a fine of \$100 upon the first young lady that dares to add one ounce of muscovado to the decoction.

1892, "The Cream of the Havana Crop."

"La Cadena" and "La Flora" brands of cigars are undoubtedly superior in quality and considerably lower in price than any brand imported. Prejudiced smokers will not admit this to be the case. The connoisseur knows it. S. Davis & Sons, Montreal.

NEWBURGH.

The snow storm on Saturday and Sunday night has been the greatest storm of this winter, our roads are all blocked up causing the people travelling by team to make roads through the fields as best they can.

Business in our village is rather dull on account of the bad roads.

We are pleased to say that Mrs. Fairburn and Mrs. Husband are improving nicely. Mrs. Sutton and Mr. Hill are no better.

Mr. Fairburn, of Potsdam, N.Y., and Miss Fairburn, of Montreal, were home this week to see their mother, who has been very ill for the past few weeks.

Mr. Wm. Scott, of Mr. Ryan's store, has been forced to remain home a few days this week on account of illness, but pleased to say that he has recovered and in his place again.

Mr. Ryan returned Saturday from a business trip to Toronto.

Miss Maud Eakins and Miss A. Briscoe are visiting friends in Napanee this week.

Miss Laughlin, of Marlbank, who has been spending a few days at Mr. James Clark's, has returned home.

Miss Maggie Rook, Miss Louise Burdette and Miss Effie Welbank spent Sunday at home.

Mr. Robert Switzer and wife paid Newburgh a flying visit this week.

Mr. Jay Doozee's famous stereopticon entertainment was well rendered on Tuesday evening, but rather poorly attended by our people. A good number of our people attended Bachelor's social at Camden East on Wednesday evening.

Don't forget the debate on Friday night, Feb. 24th, in the basement of the Methodist church, "Resolved that the man from the city is greener in the country than the man from the country is in the city."

Professor Fulford, of Brockville, and other foreign talent will give a first-class concert here the first week in April, in Finkle's Hall.

Miss Addie Baker left here for Peterboro' on Wednesday this week.

Piles! Piles! Itching Piles!

Symptoms: Moisture: Intense itching and stinging; most at night, more by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases, cures the tumors. At 25 cents per box, by mail for 50 cents. Dr. Swayne & Son, Philadelphia, Lyman, Sons & Co., Montreal, wholesale agents.

CONWAY.

We were visited with another severe storm on Sunday last, which makes the sleighing a great deal better.

We are sorry to say that Mr. Vanduyck met with a painful accident on Saturday last. While unhitching his team one of the horses stepped on his foot smashing his toe. Dr. Northmore dressed the wound.

O where, tell me where, did the little pony go on Saturday night last? Why it went across the ice with one of Conway's fairest young ladies.

We are pleased to say that Mr. R. O. Cadman has returned from visiting the Grand Lodge of the A.O.U.W. in Toronto last week. Welcome back, Robert.

Mr. Hendry, agent of the Equitable Life Assurance Company, of Kingston, accompanied by Mr. Samuel McNeil, of Conway, were around insuring the lives of some of Conway's able young men. We advise both young and old

become the most successful.

Some real estate near the town line has passed from the hands of Mr. Geo. Robinson into that of Mr. S. Hinch.

Amos Robinson has returned from the west to visit relatives and renew acquaintances. Welcome home, old boy.

We notice, also, that Mr. and Mrs. John Gordanier are home again from the dominions of our long legged uncle with the star-spangled vest.

It is with pleasure that we see the face of our pastor, Rev. J. McMullen, again. Mrs. McMullen is expected from Little Britain this week.

About sixty neighbors and friends surprised the family of Mr. F. C. McGuin on Thursday eve, the 16th inst. A very agreeable evening was spent. An address was given to them, being somewhat as follows:

To Mr. F. C. McGuin and Family:

Dear and much esteemed friends,—As we shall probably have few chances to meet together again and enjoy a pleasant hour in your home and company, we have taken the privilege of intruding on the peacefulness and quiet of your evening to once more have pleasant intercourse. We are indeed sorry that your failing health has required you to give up the cares and worry of a farmer's life, and regret that you are going to leave our neighborhood, but trust that through God's blessing you will long be spared, that we may have the pleasure of seeing your face and that we may from time to time have the pleasure of renewing the friendship which in the past has been so fraught with pleasant seed sowing. You have, unconsciously, no doubt, been sowing seeds of kindness and integrity by your example. You have all endeared yourselves in the memory of many hearts and we hope "the friend that sticketh closer than a brother" may prosper you. Your Friends and Neighbors.

Mrs. McGuin gave a kind reply and with her characteristic gentleness and hospitality asked their many friends to remember them in their new home.

THE WORLD'S MILITARY.

The Simplon road, from Switzerland to Italy, was built by Napoleon's engineers in 1807. Over 400,000 workmen were employed at one time.

In breaking up the Volta, an old wooden cruiser of the French navy, a loaded shell was found in her timbers. It is believed the shell was fired into her at the bombardment of Foochow, nine years ago.

War and glory have been costly things to France. Between 1792 and 1815 she sacrificed one-half of the 4,500,000 soldiers whom she sent to fight her battles. War has cost her in this century not far from 6,000,000 lives.

Pagnier, the first French soldier killed in the war of 1870, has now a handsome monument erected to his memory in the cemetery of Niederbronn, near Strasbourg, on the initiative of the patriotic association called the "Souvenir Francais."

J. W. Thomas, a union veteran, of Weeping Water, Neb., has set out for Texas to recover from a confederate veteran there the pocket Testament which was taken from Thomas when he lay wounded on the battlefield at Pittsburg Landing.

Dr. Charles Crawford, a leading surgeon in the British army, warns the English people that their army is losing its power because the stature and physical endurance of the soldiers are being materially lowered by drink. He says drinking is now so general in England that the race is being seriously deteriorated.

During the campaign in Dahomey the French soldiers found the Dahomeyan women much more redoubtable than the men, and what amazed them most was that the amazons not only carried repeating rifles, but also had cords around their waists for the purpose of binding any Frenchman who fell into their hands.

A new standard for recruits for the British army has been set in regulations just issued. A recruit will be accepted if he stands five feet four inches in his stockings, measures thirty-three inches round the chest and weighs one hundred and thirty pounds. If any candidate does not reach this standard, but appears otherwise promising to the recruiting officer, he may be accepted.

"Shorter" Pastry and "Shorter" Bills.

We are talking about a "shortening" which will not cause indigestion. Those who "know a thing or two" about Cooking (Marion Harland among a host of others) are using

COTTOLENE

instead of lard. None but the purest, healthiest and cleanest ingredients go to make up Cottolene. Lard isn't healthy, and is not always clean. Those who use Cottolene will be healthier and wealthier than those who use lard—Healthier because they will get "shorter" bread; wealthier because they will get "shorter" grocery bills—for Cottolene costs no more than lard and goes twice as far—so is but half as expensive.

FRESH TEAS.

The Napanee Express.

NAPANEE, FRIDAY, FEB. 24, 1893.

Not a few Conservatives think the wobbling course of Mr. Craig, of East Durham with respect to the tariff question an exceedingly selfish one. He is apparently willing now to reduce the tariff upon everything imported into the Dominion except sheepskin leather, an article which, by a curious coincidence, is manufactured by his own firm in Port Hope.

We are told that the tariff is but one feature of the Tory party's National Policy. Quite true. The other features are the debauchery of constituencies with money contributed by the beneficiaries of the high taxation system; the degrading of our political life, and the making of Canada a commercial dependency of the United States by "looking to Washington" for suggestions and examples with respect to fiscal legislation.

MONSTER petitions signed by thousands of farmers demanding the abolition of certain customs taxes and the reduction of others were presented to parliament yesterday. Those petitions are a complete answer to the finance minister's assertions about the great prosperity and contentment existing among our agricultural population. Cooked statistics will not compensate the farmers for the decline in the value of farm products, nor pay the heavy taxes which Mr. Foster imposes upon them.

THE Gladstonians captured the Unionist seat of Pontefract on the day on which Mr. Gladstone outlined his plan of home rule; and Friday gave them the brilliant victory of Hexham, the day on which the bill was read a first time. Three seats have now been captured by the government, against one lost, a net gain of four votes, all in England, where an increase in the government's strength is most needed. The government will also, there is little doubt, take the constituency of Stockport, vacant by the death of Mr. Jennings.

THE Shareholder says: "The budget speech is not calculated to increase the admiration of the Canadian people for the National Policy, the Government in their fondness for the Canadian manufacturer being apparently blinded to the fact that the manufacturers of Canada, instead of being the people, the whole people and nothing but the people, are only a comparatively small portion of it. The exorcismes to which the National Policy has furnished nourishment are gathering around it, and unless removed will destroy it. The budget speech is a disappointment and a failure, for the mouldering branches will continue to disfigure the National Policy."

THE manufacture of binding twine is now in progress in the Central Prison in Toronto, and the article will be supplied to farmers at little more than cost. This will no doubt force the combine to reduce its prices, notwithstanding the advantage it enjoys under the Foster tariff. The twine manufactured in the Central Prison is of superior quality, and whatever profit may result from its manufacture will go towards reducing the cost of the prison to the taxpayers of the province. Of course the "prison labor" cry will be raised by the agents of the combine against the Ontario Government's action, but prisoners must be kept at work. They must be provided with useful employment so that the cost of their maintenance may not fall entirely upon the honest and law-abiding portion of the community. A man engaged in making binder twine in the

DAFOE'S ROLLER

It was well known throughout the County that I was placing considerable expense, a **FULL ROLLER PROCESS**. The Mill has only been in operation one month, and is giving respect. It is now running day and night, under the management of an expert roller miller, late of Winnipeg. you like to travel in this County of Lennox. Many of those mortgagors will no doubt be watching their member now at Ottawa with interest and solicitude to see whether he will vote to keep them down or to help them up, whether he will vote for a continuance of the tax on their binder twine, corn, coal oil, implements, etc., etc.

I have been asked and urged, Mr. Editor, to deal with these and other cognate questions in your columns. Below in the Mail article your readers will see my views on the mortgage question, and they will probably hear from me at first hand on other matters of vital interest as I may have opportunity:—

To the Editor of the Mail:

Sir,—From a prominent farmer with 250 acres of land in the North Riding of the county of Wellington, Ont., I have received a letter in which he says:—"I have read with much satisfaction the series of able letters you have been kind enough to send to The Mail from time to time, and I should like to see you handle the subject of farm mortgages and how they can be lifted off the farms by a reduction or cheapening of the rate of interest, as it is my opinion that that process is the only way it can be done."

This is no doubt the most vital and important question immediately facing the farmers to-day—how to lift the mortgages from their farms. I cannot agree with my (personally unknown) correspondent that "the only way it can be done" is to reduce or cheapen the rate of interest. Were the interest on mortgages reduced now to 1 per cent the farmers could not extricate themselves under the present conditions, and under the present system

let him get into some other field and try his legs there. If the farmer can't stand alone, with a fair chance, let him, too, go to the wall. If the manufacturer on his own ground is not willing to supply me the same quality of products as cheap as the foreigner, who has to pay freight, etc., to get them here, something is wrong with the manufacturer. Something is rotten in his little Denmark. One of two things is certain and true of him. Either he is asking too much for his goods, or he is the wrong man in the wrong place. Am I to suffer in either case? If he is a round man in a square hole, who's to blame? Am I to be drafted into service nonens volens to help to force a square peg into a round hole? Or, if he fits nicely, and being "greased" slips in easily, has he any right to bleed me from his vantage ground? Has the Government the right to give him the lancet and tell him to proceed to business? If, then, I exercise a natural right of self-preservation and draw my revolver to resist the spurious and usurped, though legal, right (?) of the lancet, what then? If that is not just how the matter stands will "our friends, the enemy," tell us just how it does stand? As soon as the farmers generally get to see clearly through this business it will have to be righted or there will be trouble in the enemy's camp. The farmers and mechanics cannot all leave the country. A prominent public man wrote me the other day to this effect:—"There is no danger of revolution in a country where the people can, if they like, get on a train any day, or twice a day, and by a few hours' ride get out of a country they do not like." He is mistaken. The people can't all get out. And those who stay

employed outside, and if a provincial government can utilize prison labor for the purpose of breaking up monopolies it should not hesitate to do so.—Free Press.

Sir Richard Cartwright, on Tuesday of last week, exposed the falsity of some of Mr. Foster's statements with regard to the apparent increase of manufacturing establishments. Anyone enjoying the use of his senses can see at a glance that the census returns were magnificently stuffed. Counting any and every manufacturing "industry" in Napanee, we challenge the most Tory to name anything near the number given. As with Napanee, so with the other towns. These increases exist only in the census returns. Sir Richard said:

"The hon. gentleman (Mr. Foster) alludes to the very large increase in the number of industrial establishments. That statement attracted my eye too. Now, I take ten towns in the Province of Ontario, and I examine the list of the industrial establishments credited to those towns, and I recommend my hon. friend to pay a good deal of attention to this list:—

Name of Place.	Population.	Industrial Establishments.
Bowmanville.....	3,377	86
Cobourg.....	4,829	83
Collingwood.....	4,940	78
Napanee.....	3,434	84
Oshawa.....	3,400	24
Trenton.....	4,600	62
Whitby.....	2,786	92
Port Hope.....	5,042	140
Strathroy.....	3,316	132
Mount Forest.....	2,214	92

In other words, in all these favored places, under the influence of the National Policy, every six or seven families had an industrial establishment between them. I believe if he had counted every tinker, tailor, carpenter, blacksmith, and every sewing girl in all those places, they could not have made up the list."

FARM MORTGAGES.

HOW TO LIFT THEM.

To the Editor of the EXPRESS:

Dear Sir,—Perhaps you may find room for the following communication on the above subject, which appeared in The Mail of Monday, 13th inst., and also in the Weekly. The subject is doubtless one of deep concern to many readers of the EXPRESS as the farmers of this county, like those of many other counties of Ontario, are heavily mortgaged. According to a certain, genial, well-preserved, voluble citizen of Napanee, who does little else than look after mortgages and notes, and politics, and Tory politicians, and the "exodus," and all that,—according to him the Beaver readers are in still greater need of the advice given below than the EXPRESS readers, and I would therefore, suggest to your contemporary across the street that he give them the benefit of the article. The worthy citizen aforesaid avers emphatically that in a given stretch of road in any direction from our county town—or take it he says, from "Asselstine's hill" in the north, down through Napanee to Bath in the south, a distance of about 25 miles—by taking them all as they come along the road, there is not, he says, one Tory in ten who owns and lives on a farm of 100 acres clear of the inevitable mortgage; and still, he says, "they vote for Wilson every time," and Wilson votes for the Government every time and the Government keeps its heel on their necks right along, and, according to Foster, intends to continue to keep it there. Now, I do not myself assert this for a fact. Mr. Editor, (that is, the "one in ten") as I don't know whether it is so or not—I hope not—but the citizen referred to says and declares it is so and he can prove it. Let us hope he is mistaken. One thing I do know, however, and that is that Grit and Tory (as well as men like myself who are neither Grit nor Tory, but have to suffer all the same) are mortgaged right

increase the farmer's ability to pay both principal and interest. Herein lies the secret. Only give the farmer a fair chance, and he will shake off the mortgages, though the interest were increased 50 per cent. What the tariffs and the combines now unjustly wring out of him would pay his interest, and what he is paying for interest on the mortgage could go towards the liquidation of the principal. From the farmers, in their desperate straits, there comes now and then a proposition that the Government should help them out by loaning them money at a low rate of interest. I am utterly and forever opposed to that. It is a bad principle, and would be a bad precedent. It is the principle of protection which is morally rotten and economically unsound. It would be a special favor extended to farmers. But they don't want any special favors; they want only their rights. And these rights granted would be worth more to them than any such special favors. And such a favor granted would constitute an excellent and convenient pretext for withholding their rights. What are these rights? Freedom to buy what he needs in the cheapest market, wherever he likes, without let or hindrance; freedom to sell what he produces wherever he likes, to the best advantage, without let or hindrance; freedom to keep the proceeds of his labor in his own pocket instead of being forced to part with a large proportion of it to fill up the pockets of the monopolists and politicians, Ministers and Governors. These are some of the elementary and natural rights of man, and if the farmer is really a man, and not merely a "beast of burden," he ought, I should think, to come in for some of these rights. The farmer feeds the world. Let the farmer "strike work" for a while and the world starves. It seems to me, then, that if there are any good things going in this life, the farmer—the original producer of them—ought to get a fair share of them. This, however, he does not get. Let alone getting special favors from Government, even his natural rights are taken from him. How long is this to last? How long are the farmers going to permit it to last? No Government has the right to specially protect or favor any one class of citizens. No Government has the right to enrich one citizen at the expense of another. No Government has the right to tax one citizen higher than another, either for "boodling" purposes or any other purpose, either for corrupt government or legitimate government. But this is exactly what is done in Canada to-day and this is the chief cause of the farm mortgages. The producer is taxed higher than the non-producer—is taxed indeed for his special benefit. The useful citizen is oppressed, while the useless citizen is fed and favored at the other's expense. The absurd answer is that certain industries—"infant industries" (always remaining infants)—ought to be encouraged—"protected." Certainly encourage them and protect them, but not at my expense. Why not encourage and "protect" me at their expense? There would be more justice and more sense in it, for this is an agricultural country, and is the agriculturist to play second fiddle for the manufacturer and let him take all the pay for the piping? That is the exact size of the situation. Canada could get along very well without any of those manufacturers who want special protection, but Canada could not get along at all without the agriculturists. Which class then, is the more deserving of protection? Neither ought to ask any or get any further than protection in their natural rights and liberties as citizens, and we have just seen what some of these are. If the manufacturer can't stand alone in an open field

and their rights it needs be. Besides, they don't dislike the country; but they dislike injustice and oppression, and hate tyranny. The young men, unencumbered with lands and mortgages, can get out and do get out. But the older men, with their wives, and lands, and homes, and mortgages on the homes, have to stay and want to stay. They are not anxious to leave the old homesteads. They do not care to leave their native country. They are the true patriots, if there are any. They are the loyal men and women of this country, if there are any. The rebels are those who are shouting loyalty and flaunting the "old flag," and driving the loyal citizens off. The "traitors" are those who, preaching patriotism, oppress the people and crowd them overboard.

I say, then, to the farmers of this country, ask no favors of Government in cheap loans or anything else. Accept no favors from Government. When you ask for free corn, or free coal oil, or free sugar, or free implements, that is, free from an unjust tax, do not ask them as favors, but demand them as rights! Do not be either bribed or bamboozled. We can lift our mortgages when we get our rights without any special assistance from any quarter. We don't need to be brought "out of the hot houses" to get used to the open air (as Mr. McCarthy recommends for the "infant industries") We have always been in the open. We can stand the worst blast nature gives. We have no quarrel with her. She has been generous. We have the best soil, best climate, the best country under the sun; but get worse treatment than the "bone and sinew" of any country this side of Russia.

I repeat, not only to my farmer friend in the West, but to all farmers, that the way to "cheapen interest" is to increase the farmers' ability to pay interest. The way to lift the mortgages is to get the tax lifted off your backs. And the way to get the tax off your backs is to vote it off. You have the power, and if you fail to use it, it is, at least partly, your own fault—not altogether, however, for you are not permitted to express yourselves freely at the polls. The Government of Canada to-day is to all intents and purposes a Government of the majority by the minority.

Yours, etc.,

ALLEN PRINGLE.

Selby, Ont., Feb. 7.

P.S.—We are told by the "prosperous" people and their subsidized organs that in the first place there are no farm mortgages to speak of; and, in the second place, if there are they are diminishing in number, and are less to-day than a few years ago. That the mortgages are diminishing in number is, I have no doubt, true; but, like some of Lord Stanley's figures at the banquet, when the fact is properly interpreted, it means something else. Why are the mortgages diminishing in numbers? What does it mean? It means, not that they are being lifted and paid off, but that in default of payment they are being rapidly foreclosed, and the lands are falling into the hands of the mortgagees and the loan companies. Certainly the farm mortgages are growing less of late, for not only are the lands passing out of the hands of the owners to the money lenders, but the depreciation has been so great (30 to 50 per cent. in 12 years) on the lands that it is hard for the farmer now to get money on his "real estate." Remember, reader, that that is one of the signs of "prosperity" in this young country! A.P.

Not a Particle.

A feature worth noticing in regard to Burdock Blood Bitters is that it does not contain one particle of poisonous matter. It cures and cures quickly without the use of any injurious ingredients.

A COMING WEDDING FEAST.

Did you hear about the wedding of our good old Uncle Sam,
To the rosy-cheeked Miss Canada, as coy as Mary's lamb?
Well you missed it if you didn't for I tell you it was grand,
And the echoes of the festival still ring throughout the land.
This couple'd been a-courtin' for more than fifty year,
And Canada'd been backward, more from bashfulness than fear.
It really didn't look, at last, as though they'd hitch at all,
Though Uncle Sam was willin' to obey the slightest call.
For, you see in this here courtin' case 'twas different from the rule,
And the one that had to break the ice was Miss Canada, the cool.
She truly liked our Uncle Sam, but feared to make the move,
Because she really didn't think her Ma would quite approve.
But by and by she asked her Ma, and wha d'ye think she said?
"Wby, marry him at once, and my blessing's on your head!
I'd kind o' like to keep you, but you've grown a big girl now,
And, after all, you only serve to keep me in a row."
And that is why Miss Canada, a peepin' through her furs
Asked Uncle Sam with roguish smile, if he would not be her's.
And Uncle Sam, replying, as he eyed the beauty fine,
Said "I've not the least objection to considerin' you as mine.
So the wedding feast was ordered, and the cards were scattered wide,
And all the nations were on hand to greet the groom and bride,
The only one that wasn't there was the Isle of Borneo,
Which was in revolution, and therefore

Do not give up until you have tried Miller's Emulsion of Cod Liver Oil, which makes flesh and blood, is a positive cure for coughs and colds, bronchitis, sore throats, and all lung troubles tending to consumption. Persons have been known to gain from five to ten pounds in weight by taking one bottle of Miller's Emulsion of Cod Liver Oil, which contains hypophosphites of lime and soda. In big bottles, 50c. and \$1, at all Drug Stores.

—Who is the belle to-night? asked she, as they stood on the ballroom floor, he looked around the room to see, and she speaks to him no more.
That New Edition.

The manufacturers of the popular Diamond Dyes, ever keeping pace with advancing science, have lately issued a new and enlarged edition of "Successful Home Dyeing," which will be sent free to any lady sending her address. New rules and ideas for home dyeing are given, and the whole work is made so simple that a child can use any of the Diamond Dyes with success. This elaborate and useful family book will prove interesting and valuable, and a copy should find its way into every home in Canada. Address Wells & Richardson Co., Montreal.

—"Can you sell me some milk?" the maiden asked of the canned milk factory man. "I cannot," he sighed with a shake of his head; "I cannot because I can."

Pain-Killer.
The testimonials borne to the efficacy of this valuable medicine are sufficient to warrant its introduction into every house. Our own opinion is that no family should be without a bottle of it for a single hour. In flesh wounds, aches, pains, sores, &c., it is the most effectual remedy we know of. A 25c. bottle will last a long time, and its low price places it within the reach of all.

—Judge Springfield, of Chattanooga, Tenn., has declared that owing to the greed of the trust he will in future hold no one for stealing coal. He will be allowing the man or woman to steal the goose from off the common as a punishment for the villain who steals the common from the goose.

—Hood's Pills cure constipation by restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

—"We have at last succeeded in getting our winter wood sawed," announces the Plunkville Bugle. "The real buzz-saw dramatic outfit that showed here last week had a wood-sawing scene in the second act, and kindly used our wood in return for advertising."—Indianapolis Journal.

—After the grip, when you are weak and "played out," Hood's Sarsaparilla will restore your health and strength.

—Ald. Ponton, Belleville, is planning for an electric railway service there.

To Get at the Facts.
Regarding Hood's Sarsaparilla, ask the people who take this medicine, or read the testimonials often published in this paper. They will certainly convince you that Hood's Sarsaparilla possesses unequalled merit, and that HOOD'S CURES.

WHAT SAYS P. MONEGAN?

Well This is What He Said to Us on 6th day of February, 1893.

For several years past my wife has suffered from great pain in her back and hips and a feeling of weight and pressing down. She would be taken so bad every two or three weeks that she could neither eat, sleep or rest for three or four days and nights. The doctor said it was piles and made her sit over hot water and gave her ointments and washes and I don't know what all—then the piles would bleed and she would get some relief, but the piles and the pain would never leave her entirely, and soon she would get laid up again. In this way she continued to get worse and worse, though she tried a great many things from the doctors and others. Well I think it was along in August, or perhaps September last, she took the worst spell she ever had and though the piles bled freely she got no ease at all. She had no appetite and could not sleep, sit or lie for the pain. At this time we were told to try "Magic Pile Lotion." We did so, and in less than an hour she got easy and fell asleep, the first she had got for three days and nights. In less than a week she was about the house attending to her work and she has had no return for now nearly five months. It was a lucky thing we got that Magic Pile Lotion and we hear many others giving it great praise. We have used it for chapped hands this winter and

PAYS FOR
THE FUTURE

and dukes and counts and czars,
With an asteroid and comet and a delegation
from Mars;
And a party from Great Britain was particularly full,
For the bride was to be given away by
good old Johnny Bull.

The presents from the nations were too numerous to name,
And the formal resolutions were by far too long to frame,
The gifts from Johnny Bull alone, if laid along the floor,
Would reach from San Francisco clear up to Labrador.

The music for the wedding march was certainly unique,
Compared with it a symphony is nothing but a squeak;
For all the bands in Europe and America combined,
Performed with such expression that the earth was undermined.

The costume of Miss Canada was such a daz' in sight
That a thousand press reporters failed to get it down aright,
And they had to find the dressmaker, her office to seek,
Before they got within a mile of writing its technique.

Her dress was made of sealskin, trimmed with Nova Scotia gold,
And her bonnet was of yellow wheat from Manitoba cold.
Her bridal veil was fashioned fair from white Niagara's spray,
Caught up with fragrant mayflowers from Evangeline's Grand Pre.

Her slippers were of crystal, carved out of Hudson Bay,
And her gloves were made of deerskin caught and tanned that very day.
Her jewels were of silver from her own prolific mine,
And she carried proudly in her hand a tall New Brunswick pine.

Uncle Sam, of course, looked gallus, as a bridegroom ought to be,
And his buttonhole contained a California red wood tree.
When the services were over the guests all stayed to lunch,
And there never was a bigger feast for human folks to munch.

There were oranges from Florida and peaches raw and canned,
Potatoes from Ontario and cod from Newfoundland.
There was grapes from near Los Angeles, watermelons from the South,
Frozen ices from Saskatchewan that melted in your mouth;

Sardines just caught at Eastport, in California olive oil,
Silver tarpon from Key West that fairly made the water boil,
Salmon from the Fraser river, eggs and bacon from Quebec,
Black bass from Lake Superior, and moose meat from Baddeck.

There were twenty million canvasbacks from off the Chesapeake—
The people ate and ate and drank till they could hardly speak;
And when it got so dark the colored waiters couldn't pass,
The ground was tapped ten thousand feet and lit with natural gas.

The after dinner speakers spoke in ninety different tongues,
And nothing stopped their eloquence but exhaustion of the lungs,
Each did his best both Canada and Uncle Sam to please,
And voted that their union was a Pan-American success.

Say, were you at the wedding when our Uncle gave the ring
To the charming girl who'd loved him long without saying anything?
If you were there and danced there, your good fortune you may think—
'Twas held upon this continent, on Christ mas, ninety-blank.

—New York Sun.

Get the Best.

The public are too intelligent to purchase a worthless article a second time, on the contrary they want the best! Physicians are virtually unanimous in saying Scott's Emulsion is the best form of Cod Liver Oil.

Minard's Liniment is the Best

Magie Pile Lotion is a most reliable and prompt remedy for those diseases and ailments for which it is recommended on the covers and labels, and many other affections of a like character. It is prepared only by the Salvator Magnus Medicine Co., of Brockville, Ont., who also manufacture the great lung remedy "SALVATOR-MAGNUS," and that unrivalled cough mixture "MAGNUS EXPECTORANT." These medicines are for sale by all regular druggists.

C. C. RICHARDS & Co.

My son George has suffered with neuralgia round the heart since 1882, but by the application of MINARD'S LINIMENT in 1889 it completely disappeared and has not troubled him since.

Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those Intending Marriage, etc.
Every man who would know the Grand Truths, the Plain Facts, the Old Secrets and New Discoveries of Medical Science as applied to Married Life, who would atone for past follies and avoid future pitfalls, should write for this WONDERFUL LITTLE BOOK.
It will be sent free, under seal, while the edition lasts. Address the publishers,
ERIE MEDICAL CO., Buffalo, N.Y.

GOSPORT, IND., August 11th, 1890.

My neighbors and stockmen often asked me in regard to Rock Salt. I answer them that I have used the New York Rock Lump Salt for the past three years for my cattle, horses, sheep and hogs, and I can say that I have no use for barrel salt for my stock. Experience will satisfy any stockman that the Lump Salt is far better for all kinds of stock. Men in my neighborhood who began using by buying 100 lbs. are now buying in lots of 500, 1,000 and 2,000 lbs. I consider it just as cheap at \$1.00 per hundred, as barrel salt at \$1.00 per barrel. Stock will not scour as they do when using the common salt, and I am of the opinion that it is only a question of time when it will be in common use.
Very respectfully yours,
JOHN WELCH.

Mr. Welch is president of the Fair Association, and the owner of the celebrated "Edgewood" herd of Short Horns, and of many fine horses, sheep and hogs.

SUNDAY NIGHT'S SNAP.

SEVERE FROSTS AND BLIZZARDS ALL OVER ONTARIO.

The Trainmen Were Out in the Cold, Sure Enough—A Snow Plow at Tottenham Wrecked Itself and a Locomotive That Was Pushing It.

TORONTO, Feb. 21.—Despatches from all over Ontario report a severe frost and blizzard on Sunday night. The train service was more or less disorganized.

A SNOW PLOW OVER.

It Wrecked Itself and a Locomotive—No One Killed.

TOTTENHAM, Ont., Feb. 21.—At 2 o'clock a snow plow and two engines were completely wrecked on the H. and N.W. div., caused by the plow leaving the track. The train was pushing its way through a heavy cut five miles south of this town when the rails spread, causing the plow to roll over, when it was immediately thrown off the track. The engine immediately behind was literally smashed into atoms. The rear engine was not so badly damaged.

A special train conveyed Drs. W. H. Wright of Tottenham and Chelvey of Beeton to the scene, when it was found four men were injured slightly, none seriously. How the engineers and firemen escaped without being killed is a mystery. It is expected traffic will be resumed early tomorrow.

IN SETTLING STRIKES.

Munitions of War Are Generally Handy in the United States.

PITTSBURG, Feb. 21.—A serious riot occurred yesterday at the Catsburg Coal Co.'s mine in Monongahela City between the strikers and non-union miners. Over 100 shots were exchanged, but no one was injured.

The mine has been in partial operation with negroes for several weeks, and the strikers have become discouraged. This morning 150 strikers—Italians, Hungarians and Frenchmen—assembled at the mouth of the pit, and when the negro miners, numbering 60 men, appeared for work the strikers drew their guns and revolvers and opened fire upon them.

Most of the negroes were armed and the fire was returned. For a few minutes there was a perfect fusillade. The negroes being outnumbered

GEN. BEAUREGARD DEAD.

He Commanded the Forces That Fired the First Shot of the Civil War.

NEW ORLEANS, Feb. 21.—Gen. G. T. Beauregard died at his residence in this city at 10.30 o'clock last night.

He was born at New Orleans in 1817 and graduated at West Point in 1838. For distinguished services in the Mexican War he was made a brevet captain. In January, 1861, he was given the position of superintendent of West Point, but resigned it in a month to enter the Confederate service.

He commanded the forces that fired the first shot of the Civil War at Fort Sumter, and was practically in command at the first important engagement—Bull's Run—and where the Southerners won a splendid victory.

After the death of A. S. Johnston he commanded at Shiloh, where he suffered defeat at the hands of Grant, and in '63 he held Charleston for a year against attacks by land and naval forces.

His last service was an unsuccessful attempt to block Sherman's march to the sea. It is to be regretted that his later years were disgraced by accepting office in the great Louisiana Lottery.

THE HAWAIIAN QUESTION.

The Leading Democratic Organ of the U. S. Swallows England's Bluff.

NEW YORK, Feb. 21.—The World says editorially:

There is already much discussion in naval circles in regard to the fortification of Hawaii. Two hundred and fifty thousand dollars were appropriated at the last session of Congress for the improvement of Pearl Harbor, and soon a much larger appropriation will be asked for.

It will be almost impossible, however, for us to fortify the islands so as adequately to protect them in the event of war with any one of the four or five leading naval powers. The London Spectator describes the situation so far as England is concerned. "We could capture the islands," it says, "if necessary, in the event of war, and in time of peace Honolulu, as an American city, would be just as convenient a port of call as it has been under the government of the native dynasty."

While there is the familiar British blue-

DOMINION PARLIAMENT.

THE BUDGET DEBATE STILL DRAWING ON ORATORS.

The Privilege of the Ballot to be Extended to the Northwest Territories—Supreme Court Decisions—A Judge Superannuated.

OTTAWA, Feb. 21.—The budget debate dragged its weary length along yesterday afternoon and evening, but interest in it is over, and it is simply a question of a few gentlemen on both sides of the House wishing to place on record their particular views. No new or startling arguments are being adduced, and none are expected. Several members on each side are booked to speak, and it is not likely a division will be reached before to-night.

Dr. MacDonald (Huron) resumed the debate and spoke up to recess, going pretty well over all the old ground against the National Policy. He praised the Ontario system of disposing of timber limits and compared it with the policy adopted by the Dominion Government, to the disadvantage of the latter. He attacked the Government for its long-continued imposition of the taxes on binder twine and coal oil, and pointed out that since the Finance Minister had reduced the duty on binder twine the price of that article had fallen one cent a pound, while the retail price of coal oil had gone down six cents a gallon since the importation of American oil in bulk is permitted.

This he claimed as evidence that the farmers had been robbed by these excessive duties, and as showing the justness of the claims of the Opposition, that the duty on these articles should be abolished. He denied that the policy of the Government developed the industries of the country, as some of the manufacturers received too much protection and others not enough, and held that the National Policy did not increase the labor market.

He touched on the exodus and quoted the old figures as to the number of people alleged to have left Canada in the last 10 years, and wound up a two-hour speech with a review of the returns for last general election, by which he endeavored to show that owing to the unfairness of the representation the Conservative party was able to have a much larger representation in the House than the number of votes polled for it justified.

After recess the debate was continued by

THE KEY TO HEALTH.

Unlocks all the clogged avenues of the Bowels, Kidneys and Liver, carrying off gradually without weakening the system, all the impurities and foul humors of the secretions; at the same time Correcting Acidity of the Stomach, curing Biliousness, Dyspepsia, Headaches, Dizziness, Heartburn, Constipation, Dryness of the Skin, Dropsy, Dimness of Vision, Jaundice, Salt Rheum, Erysipelas, Scrofula, Fluctuation of the Heart, Nervousness, and General Debility; all these and many other similar Complaints yield to the happy influence of BURDOCK BLOOD BITTERS.

For Sale by all Dealers.

T. MILBURN & CO., Proprietors, Toronto.

Ask for Minard's and take no other

three to one became frightened and fled to their homes.

Elated at their success, the strikers drove David Hill, the watchman, from the mines, after which they marched to the house of James Jones, one of the mine owners, and ordered him to come out. When he appeared a number of shots were fired in the air to intimidate him, but he boldly stood his ground and soon succeeded in dispersing the mob. No arrests have been made, but informations will be made against the leaders. An application for deputies will at once be made to the sheriff of Washington County. The situation in the fourth pool is growing serious. The men have been on strike for nearly six months and are becoming desperate, as the operators have decided to start their mines with non-union men.

EDWARD BLAKE.

He Has Won Many Admirers Through His Oratory.

LONDON, Feb. 21.—Edward Blake's speech in the House of Commons on Friday night was much applauded in the House and in the press.

Mr. Leonard Courtney, a Unionist, and the Deputy Speaker, who followed Mr. Blake, voiced the feelings of Mr. Blake's friends and of many of the latter's foes when he referred admiringly to the character and the ability displayed in the speech of Mr. Blake.

Mr. Courtney expressed the belief that Mr. Blake would in time reach a position in Britain equal to that occupied by him in Canada.

The Canadian's speech is expected to herald Mr. Blake's selection as the man to lead the Irish party. In this way it is hoped that the Parnellites and Anti-Parnellites will be united.

An Odd Comparison.

LONDON, Feb. 21.—The Standard calls the Home Rule bill a "colossal monument of ingenious futility," and ridicules especially the financial proposals. It says that the unity of the countries would rest on a basis of whisky and brown stout.

The Times says: "The bill promises no finality. It offers no hope of even temporary relief. The financial proposals mean the permanent crippling of our whole fiscal system."

Scotland Wants It, Too.

LONDON, Feb. 21.—The Midlothian Liberal Association has adopted a resolution declaring that Home Rule for Scotland is a necessary condition to granting Home Rule to Ireland.

Excitement in Cuba.

MADRID, Feb. 21.—The Minister of the Colonies has received a despatch from Rodriguez Arico, captain-general of Cuba, stating that great popular excitement prevails in Santo Domingo in consequence of the concession of the customs with an accompanying grant of land to the American syndicate.

Gen. Henauer, the President of Santo Domingo, is fiercely denounced by the people and there is every sign of a revolution. A Spanish war vessel has left Cuba for Santo Domingo to protect Spanish interests.

The excitement among the people of Santo Domingo is based on an apprehension that the concession to the syndicate is but a prelude to an attempt by the United States upon Dominican independence.

Fishermen's Luck.

LONDON, Feb. 21.—The fishing boats Charlotte and Jessie foundered in a storm in the boats were drowned.

A terrific storm has swept the northeast off Wick yesterday. All the 19 men coast of Scotland since early yesterday. Much wreckage has drifted ashore and reports of small losses of life at various points are received hourly.

African Fends.

LONDON, Feb. 21.—Mail advices from Cape Palmas, on the Liberian coast, state that the feuds of the natives at Rocktown culminated on Jan. 26 in a battle in which 40 natives were killed and 200 wounded. As the mails left hostilities were renewed.

To Dine With the Queen.

LONDON, Feb. 21.—Mr. and Mrs. Gladstone will be entertained by the Queen at Windsor to-day. They will return to London on Wednesday.

Had a Good Reason.

LISBON, Feb. 21.—Owing to the failure of the Cortes to approve the financial scheme of the ministry the Cabinet has resigned.

ter in this assumption, and we are under no obligation to pay any attention to the views or wishes on this matter of the great land pirate among nations, it is quite certain that we must increase our naval strength immensely to hold the islands should any first-class power desire to take them. It will be many years before our navy is sufficiently powerful for us to spare any part of it for the protection of territory so far away. To do so we must seriously weaken the defenses of our seaports both on the Atlantic and Pacific.

It seems therefore that we are asked, in addition to royal pensions and an assumption of the Hawaiian debt, to spend large sums for fortifications on islands that would fall an easy prey to any of the first-class naval powers. Should we not have war there would be no need of annexation, as we already have a coaling and supply station in Pearl Harbor that can with small cost be sufficiently improved to meet all the necessities of our commerce. Greater absolute rights and privileges on the islands, and even a control of them under a protectorate, which their position in relation to our commerce with China and Japan renders desirable, can be secured by treaty.

But absolute annexation as "an integral part of the Union" would involve endless cost and complications. So far as we can see, this country would derive no material, certainly no moral, advantage from owning and governing Hawaii. All the advantage would be derived by Hawaiians and other inhabitants, who would thus be furnished with a stable government, and would gain certain commercial advantages by annexation. There is nothing whatever in the case to tempt us from the safe traditional policy which has been pursued by the Government from its foundation, and which may be considered an unwritten part of our Constitution.

This leaves out of question, too, the fact that annexation would involve the final overthrow of the native dynasty, with all the hereditary rights, both public and personal, that pertain to it. Such a course on the part of a great nation would neither be courageous nor just, and would establish a precedent which might some day return to torment us. It would also, as a correspondent of The World pointed out yesterday, make our Monroe doctrine almost as ridiculous as the Samoan incident did.

THE RAGING OHIO.

The River Is a Raging Flood—Many Houses Carried Away.

HUNTINGTON, W. Va., Feb. 21.—The Ohio River is now higher than at any time since the disastrous flood of 1888. The wind is blowing a fearful gale, and the waves are from 10 to 20 feet high. There has been much damage to wharf boats and other floating properties. Nine small house boats sank yesterday and last night. The occupants in some cases barely escaped with their lives.

Towns adjacent to Huntington not so highly located are suffering very much. Houses have been upset and carried away at Ceredo, involving a loss of hundreds of dollars.

If the river continues to rise much longer Huntington will also be in danger.

The Silver Problem.

NEW YORK, Feb. 21.—The World's Washington special says: An important step toward the re-opening of the silver question before the Congress expires was advised yesterday at a secret conference held at the residence of Mr. Carlisle, the next Secretary of the Treasury. Representatives of both the free silver and the anti-silver factions were present and a free expression of views as to the possibility of passing a compromise bill was had.

A number of propositions were prescribed by both sides, but the one which was finally agreed to aims to suspend the silver purchases under the Sherman Act until the Seigniorage silver shall be coined at the rate of \$3,000,000 a month. If this proposition should go through it was pointed out that within a year the treasury assets would be increased by \$40,000,000.

Cleveland's Cabinet.

CHICAGO, Feb. 21.—A dispatch from Washington to The Inter-Ocean says: President-elect Cleveland has completed his Cabinet by appointing John W. Russell of Massachusetts as Secretary of the Navy, and George W. Jenks of Philadelphia as Attorney-General.

Hanged Himself.

MITCHELL, Feb. 21.—Meshach Garbutt committed suicide yesterday morning by hanging himself with a clothes line in the woodshed while the inmates of the house were at church. He was about 70 years of age.

After recess the debate was continued by Messrs. McLennan, Devlin, Craig and Choquette. The adjournment of the debate was moved by Mr. Bellef, and the House adjourned at 11.45.

Mr. Coatsworth gives notice that he will ask on Wednesday whether the Government has been made aware, through its officers or otherwise, of the unsuitability of the Government buildings in Toronto for carrying on the Government business in a satisfactory manner, and whether attention has been called to the desirability of placing all the Government offices in Toronto in one building, and, if so, what steps are being taken to carry out the project.

The Supreme Court met to-day for the delivery of judgments, amongst the decisions given being the following:

Attorney-General of Canada v. The City of Toronto, appeal from the Court of Appeals, Ontario; allowed with costs, Patterson, J., dissenting.

Campbell v. Patterson and Mader v. McKinnon, appeals from Court of Appeals, Ontario; dismissed with costs.

Huson v. South Norwich, appeal from Court of Appeals, Ontario; validity of by-law respecting sale of liquor, which only was argued, dismissed.

Argument on constitutional question respecting local legislation for sale of liquor ordered to be set down for May term, then to be argued before a full bench.

G.T.R. Co. v. Halton, appeal from Court of Appeals, Ontario; dismissed with costs.

The following private bills were read a second time to-day and referred to the Committee on Railways, Canals and Telegraph Lines:

An act respecting the Manitoba and Southeastern Ry. Co.—Mr. Larviere.

Act to incorporate the Cleveland, Port Stanley and London Transportation and Ry. Co., and to confirm an agreement respecting the London and Port Stanley Ry. Co.—Mr. Roome.

Act respecting the London and Port Stanley Ry. Co.—Mr. Moncrieff.

Act respecting the Port Arthur, Duluth and Western Ry. Co.—Mr. MacDonell (Algonia).

Act to incorporate the Atlantic and Pacific Ry. Co.—Mr. Bergin.

Act respecting the G.T.R. Co. of Canada.—Mr. Tisdale.

Act respecting the Southeastern Railway.—Mr. Pope.

Act to incorporate the Calgary Street Railway Company.—Mr. Davis.

Quite a number of questions were asked and answered about local matters, none of which were of general interest.

By agreement made across the floor by Sir John Thompson and Mr. Laurier, the notices of motion were run through, and a number of unapproved motions for papers passed, amongst them Mr. Davin's motion for Judge Wetmore's report on the charges made against Commissioner Herchmer of the Northwest Mounted Police.

Mr. Maclean (East York) has presented a petition of 310 constables of the Province of Ontario asking that the fees allowed for arrests, attending justices, serving warrants, which have been reduced by the new criminal code, be restored to the old figures. When the bill amending the code comes up he will try to get the figures amended.

When the House met after recess a very handsome wreath of calla lilies and other white flowers was lying on the desk of the late D. W. Gordon, member for Vancouver, B.C., the news of whose death at Nanaimo yesterday was received here to-day by Mr. Earle, M.P. The wreath was placed on his desk by his confreres from British Columbia. Later in the evening the following telegram was sent to Mrs. Gordon by Mr. George Taylor, chief Government whip:

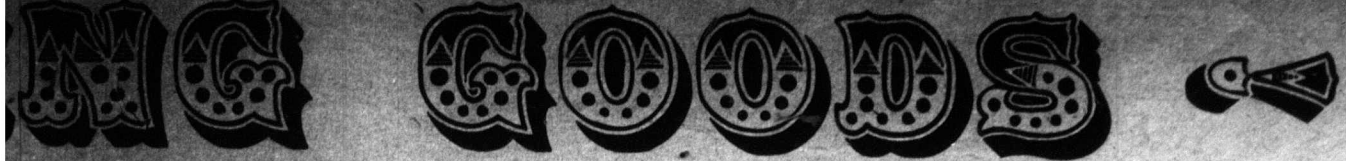

"The Conservative members of the House of Commons regret exceedingly to hear of the demise of their late colleague, and tender you their deepest sympathy in your great affliction."

Sir John Thompson last night gives notice of a bill to amend the Northwest Territories Representation Act, which extends the ballot to the territories.

Judge Macdonald of the Supreme Court of Nova Scotia has asked to be placed on the superannuation list and his request was granted at yesterday's meeting of council. Mr. Hugh McDonald Henry, a leading member of the bar of Halifax, was appointed to succeed Judge Macdonald on the Supreme Court bench of Nova Scotia.

Montreal's Mayor.

MONTREAL, Feb. 21.—The recount of the votes cast in the mayoralty contest, Feb. 1, asked for by Mayor McShane, was refused by Judges Taschereau and Tait of the Superior Court yesterday, and Mr. Desjardins is accordingly confirmed in the position of Mayor of Montreal.

The great Dry Goods, Millinery, Carpet, House Furnishings and Fur Emporium of the Central District.

FIRE IN MONTREAL

The Trolley and Telegraph Wires in the Way and Nearly Caused Death.

MONTREAL, Feb. 21.—Montreal was visited by another big fire yesterday which destroyed thousands of dollars worth of property and resulted in one of the fire men being seriously if not fatally injured. The fire started in Richard Smarden's boot and shoe factory in William-street.

The factory occupied a portion of a large brick block, which extended from William to St. Paul-streets. The flames spread from Smarden's factory to J. E. Mullin & Co.'s boot and shoe factory adjoining in St. Paul-street and the whole block was soon on fire. A high wind was blowing at the time and other large factories and ware houses in the vicinity were threatened.

The entire brigade was called out and all the efforts of the firemen concentrated on keeping the fire from spreading. Owing to the bitter coldness of the weather and the high wind it was an extremely difficult task.

The fire was accompanied by a thrilling scene. While the fire was at its height and the smoke so dense that the firemen were unable to see to work, a voice was heard from the upper or fifth story calling for help. At first it could not be ascertained who the person was. As a gust of wind drifted the smoke away for an instant Capt. Prevost of No. 4 station was seen at a corner window almost suffocated by smoke in a most dangerous position.

The great crowd looking on uttered a cry of horror, and there was a universal cry to rescue him. The Skinner ladder could not be worked in the lane, and another ladder could not be made to reach Prevost. Attempts were made to raise the Skinner from St. Paul-street, but the trolley and telephone wires were in the way, and it was some time before the Skinner was up.

Then when the firemen mounted none of them had an ax, and they had to attempt to break the window in with their hands. By this time a smaller ladder was got up to Prevost, and amidst the cheers of the crowd he started to descend. Prevost lost his hold and fell to the ground, striking on his back.

The Notre Dame Hospital ambulance was summoned, and Prevost was removed, badly injured. The whole block was completely destroyed by fire, but the firemen succeeded in keeping the fire within these bounds.

The principal losers are: Smarden & Co., Mullin & Co., Keegan, Milne Co., Electrical Supplies, Doyle and Anderson, wholesale tenn. The total damage is estimated about

THE COAL MONOPOLISTS

ARE OVERTAKEN WITH DISASTER IN THEIR GREED.

They Were Reaching Out for the Earth and a Close Board Fence, and They Fell Into the Clutches of Other Wealth Abusers.

NEW YORK, Feb. 21.—The Philadelphia and Reading Railway is in the hand of receivers. Its credit and its power in the financial world are gone and the ownership of its panic-blown, widely-scattered stock is unknown.

The rise and fall of one of the most extensive and ambitious railroad combinations ever attempted are embraced in the comparatively brief period of one year and a fortnight. It was just a year ago this month that the formation of the great Reading-Jersey Central-Lehigh Valley alliance was publicly announced. Railroad men and Wall-street financiers were surprised and impressed by the magnitude of the combination. In mileage it was the largest railroad system in the east, and its ownership of coal mines made it apparently the arbitrator of the coal markets of the country.

The hand of J. Pierpont Morgan was frankly disclosed in the new combination and the prestige of his name added much to the public confidence in the stability of the scheme.

Archibald McLeod was hailed as the saviour of Reading and praised as the coming railroad magnate of the world. His simple declaration of what he intended to do was popularly accepted as the statement of a thing accomplished.

Mr. McLeod has not been indolent in his high estate. His brief career, as president of the Reading system, has been marked by an uncommon exhibition of activity, energy and personal self-reliance. His administration forms a unique and theatrical chapter in the history of American railroads. The dissolution of the Reading combination which culminated to-day was begun by the opposition of the New Jersey authorities and courts to the formation of a coal trust.

It was the New England extension, which practically was a declaration of war against the powerful New York, New Haven and Hartford Railroad corporation, that caused the successive uprising of obstacles over which Mr. McLeod has been stumbling for the past few months. By invading the territory of the con-

What is

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osmond,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHELO,
Conway, Ar.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARNOLD, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

by \$200,000. When the fire broke out the two large boot and shoe factories were crowded with hands, but they all managed to escape in safety.

The following are the losses and insurances in yesterday's big fire, so far as made up last night:

J. E. Mullin & Co., machinery \$31,000, stock and manufactured goods \$50,000; total loss. Their insurances are \$14,000 on machinery, \$17,000 on building and \$25,000 on stock.

The building was owned by J. E. Mullin and valued at \$50,000.

R. Smardon, boots and shoes, rented the southern part of the block from Messrs. Mullin & Co., and sublet it to tenants. Mr. Smardon was insured for \$2000 on the stock, and for \$6000 on the building.

Keegan, Milne & Co., electric supplies, estimated loss \$10,000, partly covered by insurance.

The minor losers are H. A. Manley, printer; Carling Brewing Co., B. J. Pelletier, Walkerville Brewing Co., W. King & Co., turnitire; Doyle and Anderson. The total estimated damage is between \$250,000 and \$300,000.

Fire in a Church.

WINGHAM, Ont., Feb. 21.—The Congregational Church here was partially destroyed by fire Sunday morning at 1 o'clock. The fire caught from the furnace, but was fortunately discovered before it had done much damage. The basement was damaged to the extent of \$500, and the organ upstairs suffered from the heat. Insured for \$2500.

Store and Dwelling Burned.

BRUSSELS, Ont., Feb. 21.—The two-story frame store and dwelling occupied by William Nightingale was burned Saturday night. Loss on furniture \$2000, and stock \$11,000. Covered by insurance.

ARSENIC DID IT.

The Jury Agrees That Duchesne Died By Poisoning.

ALEXANDRIA, Ont., Feb. 21.—The report received from Dr. Ellis re the cause of death of the late Cleophas Duchesne was read to the jury by Coroner McMillan on Saturday evening.

The report was that sufficient arsenic was found in the stomach to cause death.

Several witnesses were further examined, but they threw no light on the subject.

Messrs. E. H. Tiffany and John A. MacDonnell appeared for the Crown and Mrs. Duchesne respectively, and made able addresses to the jury.

It was over three hours before the jurors came to an agreement.

Meanwhile an eager crowd hung around despite the fact that it was a cold night.

The verdict was: "That the said Cleophas Duchesne came to his death from poisoning by arsenic, and while the jury cannot free themselves of the extraordinary coincidence of the purchasing of rough on rats—a preparation of arsenic—on that Tuesday by Mrs. Duchesne, they cannot from the evidence directly charge her with the administration of the poison." It is not known as yet if it is the intention of the Crown to push investigation farther.

Would Sooner be Tried.

NEW YORK, Feb. 21.—John C. Eno, the absconding president of the Second National Bank, who has been a fugitive in Canada since 1884, returned to this city to-day and surrendered himself. He appeared before Commissioner Shields and was released on \$20,000 bail.

The trial was fixed by Commissioner Shields for the next term of the United States Criminal Court, which begins the second week in March.

Boat for the Upper Lakes.

MONTREAL, Feb. 21.—D. G. Thompson, general manager of the Montreal Transportation Company, has returned from the Old Country, where he completed arrangements for the building of a new steamer to run on the upper lakes. The boat, which is to be delivered in May, will be 253 feet long and have a capacity of 8500 bushels. It will be taken through the lower canal in two sections. The boat is to cost \$21,000 and will be one of the finest on the lakes.

Hundreds Were Killed.

TANGIER, Feb. 21.—The rebels forced an entrance to Wazan on Wednesday for the purpose of looting the city. When all were within the walls the citizens closed the gates and attempted to annihilate the attacking force. The streets were scenes of horrible carnage for four hours. Hundreds were killed.

intending the territory of the consolidated system he antagonized strong financial interests represented by Drexel, Morgan & Co., which at the outset was his most powerful backer. The relations between Mr. J. Pierpont Morgan and the Reading management at once became strained, and it was not long before Mr. McLeod found his feet slipping off his financial base.

The excitement in the New York stock exchange over the Reading stock to-day surpassed all previous movements in that stock. More shares than are represented in Reading's entire stock changed hands. The total number of shares of all kinds of stocks sold to-day aggregated 1,433,000. Of these 957,955 were Reading shares. This tremendous day's business breaks the Stock Exchange record.

BADLY SEWED UP.

The Reading Railway Co. Affairs in the Hands of a Receiver.

PHILADELPHIA, Feb. 21.—The application for a receivership for the Reading Railway Co was granted by Judge Dallas late this afternoon. The application was made by ex-Senator Thomas C. Platt of New York as a holder of the company's third preference bonds. The receivers appointed are: A. A. McLeod, president; Eliza P. Wilbur of the Lehigh Valley division of the Reading and Edward M. Parson, Chief Justice of the Supreme Court of the State of Pennsylvania. The receivers' bond is \$500,000.

THE SEED SPROUTED.

Baby Wiggins' Queer Effort at Orange Culture.

PHILADELPHIA, Feb. 21.—It is said Babies do many queer things, but little 2-year-old Joseph Wiggins of No. 2026 Mountain-street beat the record the other day when he swallowed an orange seed and at once proceeded to grow the sprout of a fine Florida orange tree in his throat. This was uncomfortable, of course, and the experiment would have proved disastrous for baby Joseph but for the kindly intervention of doctors.

It was on Monday that the little boy's mother gave him an orange after carefully preparing it for him. Unfortunately, however, one seed remained in the pulp, and this seed became lodged in the baby's windpipe, almost instantly causing a slight difficulty in breathing.

Little attention was paid to the matter at first, but on Tuesday the child's breathing became more painful and was constantly accompanied by a slight choking. Drs. H. R. Wharton and J. P. Tunis were called in and informed by the mother that the trouble was caused by some of the orange pulp. The usual remedies were applied and some relief obtained, but on Wednesday night the condition of the child became serious.

After a careful examination the physicians decided that the only means of saving the little sufferer's life was to perform tracheotomy. On Thursday this was undertaken and a long incision was made in the neck, opening the windpipe. At the point where the latter joined the lungs a hard substance was detected deeply embedded in mucous. When removed it proved to be an extraordinarily large orange seed. The wound was closed up and dressed. And yesterday the boy was on the road to recovery.

The seed was in a particularly dangerous position and would undoubtedly have caused suffocation in a very short time. While lodged in the throat the heat had caused it to open at one end and to sprout slightly. It was also swollen greatly beyond its original large size.

A Gambler's Fate.

ROCHESTER, Feb. 21.—Julius Rosenthal, city editor of The Volksblatt, is missing. His employer, Dr. E. H. Makk, has received a letter from Rosenthal stating that he was a thief and a forger and that he was going to commit suicide. He has been gambling pretty heavily of late.

At 8 o'clock last evening it was learned that Editor Rosenthal was registered at the Livingston Hotel. Further investigation was made, resulting in finding the desperate gambler and forger unconscious in his room in the sixth floor. He had taken several grains of morphine, and before lying down to die had stuffed cracks under the doors with papers and turned on both the gas jets. He was removed to the city hospital, where he is in a precarious condition. His forgeries amount to a large sum. He was arrested on a similar charge in 1888 at Saginaw City, Michigan.

Holloway's Ointment and Pills.

Glandular swellings in the Throat, Neuralgia, tic dolereux, rheumatism, gout, lumbago, and other diseases affecting the glands, muscles, and nerves of sensation are permanently eradicated by this healing anti-febrile and soothing preparation. It is also a perfect remedy for all skin diseases and all kinds of superficial inflammation, which soon loose their angry and painful character under this invaluable Ointment. The Pills have never been administered either by hospital or private practitioner in dyspepsia or liver complaints without producing the desired results.

—Collingwood Reformers met on Saturday night and elected officers, and passed resolutions of confidence in Hon. Wilfred Laurier and Sir Oliver Mowat.

—Rebecca Wilkinson, of Brownsville, Ind., says: "I had been in a distressed condition for three years from Nervousness. Weakness of the Stomach, Dyspepsia and Indigestion until my health was gone. I had been doctoring constantly with no relief. I bought one bottle of South American Nerve, which done me more good than any \$50 worth of doctoring. I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy: a few bottles of it cured me completely. I consider it the grandest medicine in the world." A trial bottle will convince you. Sold by Detlor & Fullerton, Druggists.

—There are 150 vacant houses in Toronto that have never had tenants, and have been built from one to two years.

—RHEUMATISM CURED IN A DAY.—South American Rheumatic cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappeared. The first dose benefits. 75 cents. Warranted by Detlor and Fullerton, Druggists.

Dep. Sheriff Wheeler

Does Not Care to Live

If He Cannot Have

HOOD'S Sarsaparilla

It would be difficult to find a man better known in the vicinity of Burlington, Vt., than Mr. R. D. Wheeler of Winooski Falls, the efficient Deputy Sheriff of Burlington county. He says: "C. I. Hood & Co., Lowell, Mass.:

"Dear Sirs: If Hood's Sarsaparilla cost

\$10.00 a Bottle

I should still keep using it, as I have for the past ten years. With me the question as to whether life is worth living depends upon whether I can get Hood's Sarsaparilla. I don't think I could live without it now, certainly I should not wish to, and suffer as I used to. For over ten years I suffered the horrors of the damned with

Sciatic Rheumatism

for if ever a man suffers with anything in this world it is with that awful disease. It seems to me as if all other physical suffering were compressed into that one. I took about everything man ever tried for it but never got a dollar's worth of help until I began taking

Hood's Sarsaparilla

I have taken it now pretty regularly for ten years and have no more pain and can get around all right. I have advised a good many to try Hood's Sarsaparilla." R. D. WHEELER, Deputy Sheriff, Winooski Falls, Vt.

Hood's Pills Cure Liver Ills

Keen Minard's Liniment in the House

Plant Ferry's Seeds

—Cream pails and creamer cans at Boyle & Son's.

—Boyle & Son are selling stoves cheaper than anyone.

—Miss Maggie Barrett left on Wednesday for Chicago.

—Miss Florence Rankin is visiting Mrs. W. F. Toby, Montreal.

—Cakes in great variety and unquestionable excellence at Davis'.

—Mrs. D. S. Warner and daughter are visiting friends in Stratford.

—The best bread in town, every variety, white and brown, at Davis'.

—Mr. W. A. Benson, of Northport, was in town a few days this week.

—C. E. Bartlett is shipping large quantities of hay to the Old Country.

—Mrs. Caverly-Nash, one of Belleville's leading singers, removes to Detroit.

—Charlotte Russe, oyster patties, wine and fruit jellies par excellence at Davis'.

Mr. McCarney, of the Paisley House, returned from a trip to Ottawa last Saturday.

—Just received at the Express Bookstore a nice line of books of fiction, all by latest authors.

—Miss Wilson, of Deseronto, has been visiting friends in Napanee during the past week.

—Rev. C. O. Johnston lectured in Millbrook yesterday. Sunday he preaches in Hamilton.

—G. W. Shibley, of Centre street, left for Montreal at noon on Wednesday on important business.

—Mrs. Wensley, Belleville, returned home last week after a lengthy visit with friends in Napanee.

—The Napanee Vaudeville Minstrels played to a good house in Odessa last night. They show here soon.

—Erastus Pringle, a popular Bellevillite, died on Monday, aged forty-two. He was a shrewd business man.

—James J. Corbett has put up \$10,000 with a challenge to Mitchell, and \$2,500 for a match with Peter Jackson.

—Mrs. Warner and Miss Clark, of John street, Napanee, are visiting Mrs. Dr. Eakins of Belleville this week.

—The case of Wright vs. Collier, touching a marine accident, near Picton, has been carried to the court of appeal.

—Examine Boyle & Son milk can before you buy a milk can. Measure the centre band. Ask to see the bottom before you buy.

—Friday's snowstorm was the heaviest of the year in New York city, when the beautiful fell to the depth of seventeen inches.

—“The Fast Press,” a new paper published in Toronto in the interests of free trade, is welcomed among our exchanges this week.

—A company with a capital of \$100,000 has been formed to operate mineral lands in North Hastings. Some Kingstonians are interested.

—Messrs. Robinson & Allen, agents for the Massey-Harris Co., have added another carload of machinery to their already large stock this week.

—“Joe” Hess is rapidly recovering from his severe illness and expects to be able to start once more into the temperance work at an early date.

—The Napanee Dramatic Club have made arrangements with the Deseronto lodge of I.O.O.F. to put on Placer Gold in that town at an early date.

—John Welsh, Carleton Place, was seized with coughing while moving down stairs, ruptured a blood vessel and died quickly. He was sixty-four years of age.

—Lawrence Manion, of Boston, writes that he will wager \$25,000 to \$15,000 or \$100,000 to \$60,000 that Corbett knocks Mitchell down and out in six rounds.

—\$15.00 per week straight salary to responsible person “male or female” to represent us in your locality.—Address B Canadian Music Folio Co., 77 Victoria Street, Toronto, Ont.

—The theatrical combination which has Jim Corbett as its star in the role of “Gentlemen Jack” will be in Belleville in April.

“Clear Havana Cigars.”
La Cadena” and “La Flor.” Initial upon having these brands 37th

Refuted.
Mr. Dodge, the new proprietor of the Tichborne House, is having the hotel refitted and re-papered, a general overhauling in fact.

W. M. Church
The pastor, Rev. J. J. Rae, will occupy the pulpit next Sabbath, morning and evening. Subject of evening sermon, “The inhabitants of the Rock.”

When in Despair.
When in despair of being cured of lung troubles, there is still a hope, and a strong hope of perfect cure in Dr. Wood's Norway Pine Syrup. This medicine cures even after all others have failed.

Seeds.
Perry & Co. will pay more for Red and Alsike clover seed also Timothy seed, than any other buyers. Office in old store, Rankin and Joy, next door Tichborne House.

Invited to Remain.
At the meeting of the Quarterly Official Board of the Eastern Methodist church held on the 9th inst., a unanimous invitation was extended to the present pastor, Rev. S. J. Shorey, to remain another year.

Races at Arden.
The long-looked-for trotting match came off on Clear Lake, yesterday. There was a large crowd of people to see the sport. G. Bradely's Young Duke, of Edinburgh won the first race, and Norman Scott's May won the colt race.

Big Fish!
Mrs. J. Murphy, of Erinsville, caught the largest fish last Friday evening, in the well, that was ever caught around here. With a rope, and what help she called on, they succeeded in bringing him to dry land. Ain't that so, George?

“How to Cure all Skin Diseases.”
Simply apply “SWATHE'S OINTMENT.” No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWATHE'S OINTMENT. Lyman Sons & Co. Montreal, Wholesale Agents. 3317

On Spot, Ladies.
Often you require your bangs curled on spot, but very often it will not hold out. Don't be despaired, only try Curline once, and you will have no more trouble. It keeps hair in curl no matter how the climate is, and leaves your bangs soft and beautiful. For sale by all druggists at 25 cents.

New Books.
The library of the Mechanics' Institute has just been increased by the addition of \$150 worth of choice books. There are now in the library about 2700 vols., comprising every subject, as History, Biography, Literature, Poetry, Fiction, Travels, etc. Now is the time to subscribe, \$1 per year entitles you to all the privileges of books, magazines and reading room.

—All kinds tinware cheap at Boyle & Son's.

How to get a “Sunlight” Picture.
Send 25 “Sunlight” Soap wrappers (wrapper bearing the words “Why Does a Woman Look Old Sooner Than a Man?”) to Lever Bros., Ltd., Scott St., Toronto, and you will receive by post a pretty picture, free from advertising, and well worth framing. This an easy way to decorate your home. The soap is the best in the market, and it will only cost 1c postage to send in the wrappers, if you leave the ends open. Write your address carefully.

Badly Frozen.
On Wednesday Mr. Henry Brady, living near Centreville, arrived on the noon train from Gilmour's shanties where he had been employed in driving Cheap John, who was selling jewellery, watches, etc., through the various shanties. Last Sunday night while driving from one shanty to another he badly froze his feet and nose. He put up at the Queen's Hotel, where Dr. Grant tended his injuries and then took the first train for home. His injuries will probably keep him confined some time.

Broke His Jaw Bone.
An accident occurred in Tweed on Saturday by which a young man named Thomas Easterbrook received serious injuries. He was in charge of his uncle's delivery wagon. The horse attached became frightened and

The Napanee Express

NAPANEE, FRIDAY, FEB. 28, 1893

—All local notices or reading notices announcing entertainments at which a fee is charged for admission, will be charged 5c per line for each insertion, if in ordinary type. In black type the price will be 10c per line each insertion.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

—Ask to see the Boyle can bottom.
—Bruton's oysters are the best.
—Wedding rings at Chinneck's.
—For fine Photos go to Hulett's.
—18k gold wedding rings at Arnett's.
—Ask your druggist for Dr. August Koenig's Hamburg drops. 22 y.

—Shelled walnuts and almonds and sweetmeats of every kind always fresh at Davis'.

—Great bargain sale of Watches and Jewelry at CHINNECK'S Jewelry store from the 17th to the 24th.

—Keep in mind the lecture of Conductor Snider, March 10th, "Life on the rail and the people I met."

—Itch on human and horses and all animals cured in 30 minutes by Woolfords Sanitary Lotion. This never fails. Sold by Degler & Fullerton, Druggists.

—BEANS.—I am buying good clean white beans and paying the highest prices—
MILES S. PLUMLEY. tf

—The Golden Anger will show you something entirely improved in carpet sweepers, a great resolution has taken place in the improvement of them. See them before you buy. All prices in hardware right.—
M. S. MADOLE.

—A. S. Kimmerly continues selling 10c tea at 25c; soda, 5c per pound; sulphur, 5c per pound; resin, 5c; alum 5c; 3 gals coal oil 60c; cracked oats 1 per 100; Bran, Shorts, all kinds of feed, Manitoba Flour, best in the world; ground flax seed 6 lbs for 25c. I pay the highest price for all kinds of furs. Fox, prime, \$1.40.

—English Spavin Liniment removes all hard, soft or calloused Lumps and Blemishes from horses, Blood Spavin, Curbs, Splints, Ring Bone, Sweeney, Stiffles, Sprains, Sore and Swollen Throat, Coughs, etc. Save \$50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by Detlor & Fullerton, druggists. 61.

—Mothers will find the Pain-Killer invaluable in the nursery, and it should always be kept near at hand in case of accident. For pain in the breast take a little Pain-Killer in sweetened milk and water, bathing the breasts in it clear at the same time. If the milk passages are clogged, from cold, or other causes, bathing in the Pain-Killer will give immediate relief. Ask for the New Bottle.

—BARGAINS in WASH-ERS and CHURNS.—Until Tuesday, March 7th, I will sell Daisy Barrel Churns and Washing Machines at a discount so as to secure a special discount offered me on a large order. Special discount extra for spot cash. Hundreds of our farmers testify to the merits of these churns and Washers. Who will secure a bargain at M. S. PLUMLEY'S 3t

months visiting friends and relatives in this vicinity, returned to her home in Fish., Minn., on Tuesday last.

—John Sharp, an employee of Tickell & Sons, Belleville, died on Monday. His death was caused from a bit of wood kicking back off a circular saw he was feeding and striking him in the stomach.

—Rev. J. J. Rice, of Deseronto, is one of the delegates appointed by the Bay of Quinte Conference to attend the World's Temperance Congress which will be held on the 5th of June in connection with the great exposition at Chicago.

—Mr. Frank H. Priest, late of Bath, has been successful in business since he removed to Toronto, where he is engaged in the grocery and general commission business on Spadina avenue. He has the avenue to himself.

—James Smith, Picton, was sentenced to 3 months in jail for entering the house of Kenneth McKenzie on Sunday evening while the household was at church and abstracted valuable papers, rare gold and silver coins and a quantity of jewelry.

—The officers-elect of the Prince Edward Liberal Association are:—J. H. Allan, honorary president; L. T. Leavens, honorary vice-president; W. T. Crandall, president; J. D. Gilbert, secretary; Webster Talcott, treasurer. Every township will be organized.

—The Tamworth Methodist church has given an invitation to Rev. J. J. Rice, of Deseronto, to take the pastorate of that charge during the next three years. Mr. Rice's term in Deseronto expires at the close of the present conference year. Mr. Rice has not yet given his decision.

—T. M. Cornett, Gananoque, was presented with a gold-headed cane by Gananoque lodge, No. 247, A.O.U.W. Mr. Cornett is working hard to have the Canadian order separate from the supreme body. Last year \$45,000 was paid for the pleasure of the connection, enough to pay over twenty-two Canadian death calls.

—Lazarus Brant, while clearing away snow before opening a quarry on the back of Sucker creek, near Deseronto, was surprised to find a garter snake two and a half feet long. The reptile was quite lively. Mr. Brant terminated its existence with a well directed blow. The presence of these snakes is said to be a sure sign of an early spring.

—R. N. Baker, a native of this country, born and reared in Ernestown, has been a life-long advocate of prohibition, casting his first vote for no license in Ernestown, and voting that principle ever since. He has received nomination for one of the best offices of the city of Syracuse, N.Y., (where he is now engaged in business) by the prohibition party, besides being president of the prohibition party in that city.

—The Gibbard Furniture company have started the manufacturing of parlor suite on a very large scale, and are finding great success. They are now offering at retail all lines of these goods at wholesale prices, and are offering some of the finest parlor suits, entirely new and of the latest design, at lower prices than was ever offered to the public. You should not fail to see their large stock. They are also offering great inducements in every line of furniture. 3t

—J. P. Delph, a Kingston laborer, who some time ago was committed for acting disorderly in a political meeting addressed by Hon. Mr. Laurier and others, was again arrested the other day and sent to jail to serve a month because he would not pay the fine of \$5. His wife, however, had good friends and succeeded in borrowing the money. Mr. Delph now says he would have paid the fine long ago, but he expected the Conservative association would stand by him. They promised to pay the fine and failed to do it.

SCIENCE AND SCIENTISTS.

The planet Neptune has the longest year, consisting of more than 60,000 of our days. Genuine volcanic dust has been found in Kansas and the Indian territory. There is a deposit near Galena, in the territory, which is said to be many feet in thickness.

Oysters come nearer to milk than almost any other common food material, as regards both the amounts and the relative proportions of nutrients, the food values of equal weights of milk and oysters being nearly the same.

Delegates have been invited from the sanitary committee of all the ports of the United Kingdom to a conference in London to discuss the cholera question and to promote unity of action in regard to measures for preventing the introduction or spread of the plague in the spring.

two places, besides inflicting other serious injury. He was taken up unconscious and Dr. Tuttle called in. Hopes are entertained that he will recover. The young man is about 20 years old.

Found After Fifty Years.
William Vallean settled on lot 31 in the 1st con. Hungerford, over fifty years ago. While tramping through the woods he lost his pocket compass. Last fall Charles Bradshaw found it on lot 30 in the 2nd con. of Hungerford. The compass is now in the possession of W. A. Marlin, who holds it to hand over to Gordon Vallean, son of the original owner. It still bears his initials and is dated 1839. It is still in good working order and in a good state of preservation. It likewise has a sun dial. The land on which it lay hidden has been cleared, burned and cultivated for over thirty years.—Tweed News.

—Sap pails and pans at Boyle & Son's.

Fraternal Visit.
The following initiating team of Argyle lodge No. 212, I.O.O.F., went to Deseronto last Wednesday night:—

A. E. Paul,	Sidney E. Scott,
Geo. Hawley,	M. W. Scott,
L. S. Madole,	L. A. Scott,
Levi Wager,	John Carson,
Mr. Jennings,	Samuel Wilson,
Albert Wager,	E. Wager,
Fred Tilley,	Chas. Anderson,
David Friskin,	M. Conger,
M. Mills,	Jake Robinson,
	W. Pybus.

They assisted in three initiations, and report having had a good time. They put up at Geo. Stewart's where an excellent tea was provided.

Wedding Bells.
On Wednesday last a happy event took place at the residence of Heiman Meng, Esq., Robin's Hill, in the marriage of his eldest daughter, Miss Maud, to William Mansfield Hurst, of Deseronto, formerly of the B. of Q. Ry. office here. The ceremony was performed by the Rev. J. J. Rae, pastor of the Western Methodist church, Miss Beatrice Hurst, of Picton, sister of the groom, assisting the bride, and Mr. Nimmo, of the same place, acting as assistant to the groom. After the ceremony a sumptuous repast was partaken of and the newly made happy couple left for a trip in the west after which they will take up their abode in Deseronto. The happy couple have the hearty congratulations of the Express among those of their many friends.

Presentation.
On Tuesday evening the members of the R. C. Church choir assembled at the residence of Miss Barrett, Centre st., and presented her sister, Maggie, with a magnificent gold bracelet and scarf pin as a mark of their appreciation of her service while a member of the choir and also as a token of the regard in which she is held by them, on the eve of her departure for Chicago in which city she intends residing for a time. Miss Barrett has been one of the leading sopranos in the R. C. Choir here for the past three years where she will be greatly missed, and is well and favorably known as having been connected with her sister in the dressmaking department of Lahey & McKenty's. Her many warm friends in Napanee will be ever ready to learn of her success in the great metropolis of the east.

Barbed and annealed wire in season at Boyle & Son's.

Church Services.
SELBY.
Divine service at St. John's church on Sunday night next, Feb. 26, at 7 o'clock. Special lenten service on Tuesday night, Feb. 28th, at 7.30, the Rev. H. B. Patton, B.A., of Deseronto, will preach.

SALMON RIVER.
Divine service at St. Peter's church on Sunday morning next at 10.45. Celebration of the Holy Communion.

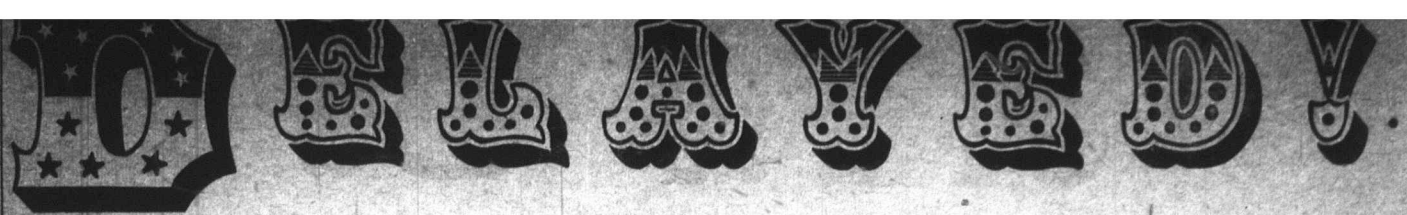

KINGSFORD.
Divine service at St. Jude's church on Sunday afternoon next at 2.45. Missionary meeting on Monday night at 7.30.

—Cup's and saucers, shaving mugs, dolls, at Arnett's.

—The finest line of Ganong's chocolates and American creams at Davis'.

—ANOTHER WEEK—I will pay 25c. per bag (11-2 bushels) for Green Apples to evaporate until Saturday, March 4th.
MILES S. PLUMLEY.

Minard's Liniment is the Best

Owing to a serious and unexpected delay in transit we will not be able to show our British goods this week. We hope, however, to place in stock early next week the contents of 29 packages ex S. S. Devonian, mainly Dress Goods, Carpets, Lace Curtains, Linens and Tweeds. In the meantime

OUR
INVOICE
SALE
WILL BE CONTINUED

till they arrive, which means but a very few days longer. We have also placed on sale this (Friday) morning

500 PIECES NEW SPRING PRINTS

The cream of the seasons Patterns. See them early.

Lahey & McKenty

Two Stores.

Rennie Block.

An Ancient Bible, 274 Years Old.

Seven generations in one family. One of the relics of the late C. V. Benson. At the residence of Portland Benson, in the township of Sophiasburgh, county of Prince Edward, may be seen an old relic in the shape of a Bible. It was printed in the Holland Dutch language at Amsterdam in the years 1618-1619. It has been hand-

Dispute over a Relic.

During the reign of Queen Anne a valuable communion set was presented by her majesty to the Mohawk chapel, in other words, to her majesty's loyal allies, the Mohawks, who at that time resided in the state of New York. When the revolutionary war ended the Mohawks with many U. E. Loyalists removed to Canada. It

own in the Benson family for six generations, the youngest son falling heir to it. This book is no small volume, it being 14 inches long, 9 inches wide, and 6 inches thick. It has ornamental brass corners, some of which have worn off. There has also been brass clasps, which have been broken. The board covers have been split, but have been fixed by recent generations with slats put across them, which have been nailed and clinched. The leaves of the book have turned quite brown with age. The book contains an Index, the Old Testament, Apocrypha, Concordance and New Testament. The chapters are numbered by using the Roman numerals, the Dutch style of letters being used. The verses are numbered by English figures. There are several maps, most of them torn, and several leaves both in the front and back of the book are gone. There are no autographs written by any of the former generations, or if there has been they have been torn out. On a whole it shows its antiquity. As for the book being in the Benson family for 7 generations, Matthew Benson, a U. E. Loyalist, came from the U. S. about the year 1783 and settled in Prince Edward Co. He was a Dutchman and could read this Bible, and he said he was the third generation of youngest sons that the book had been handed down to, which would mean that he was the fourth generation that had had this book. The book has probably come to America shortly after it was printed, for the Dutch portion of America was given to England in a treaty of peace between England and Holland, 1670. After this the Dutch would not be so likely to come to America. It evidently stayed in the United States for a hundred years or more, and then came with Matthew Benson to Canada about the year 1783. Matthew Benson's youngest sons were twins, namely Richard and John Benson. The Bible after Matthew's death was disputed as to the owner, and sometimes it was in one family and sometimes in the other. It was taken from John Benson's family and given to W. H. Benson, the youngest son of Richard Benson. He by moving about the country, the book got in strangers hands. Portland Benson, grandson of John Benson, found the book and purchased it back into John Benson's family from Rev. W. D. P. Wilson. Portland Benson is the youngest son of the late C. V. Benson. The Bible's lineage would be, Matthew Benson, a U. E. Loyalist, was the third generation of youngest sons, fourth generation that had possessed the book. John Benson, his youngest son, Cornelius V. Benson, his second son, Portland Benson, his youngest son. John Benson's youngest son was Richard Benson, who died in his youth. Heldbrand Benson was the next youngest, and his youngest son is Arkland Benson, the rightful heir. He at present is in Australia, too far away to lay any claim to the book. This Bible is truly an ancient relic, its equal would be hard to find in this new country. In olden times things were made substantial, so as to last for ages, and prized for their age, but this new country and these last generations have too much love for change, and a greater desire for things that are new, to preserve anything that is old. And then to think that it has been for seven generations in this family shows that for this length of time they have been true converts to the christian faith, if not always a true follower of Christ. It also shows that they have been true to their principles, in as much as, leaving their ancient home, Holland, for America, and again leaving the United States for Canada, simply for their love of true principles. What greater evidence could we ask for their love of truth, which was taught in the book they preserved and cherished.

LOOK AT THE BEAUTIFUL WOMEN

Around you that are using **PEACH BLOOM SKIN FOOD**. Their complexion is brighter, fresher, smoother, and more beautiful than the Women who use cheap preparations.

PEACH BLOOM is not a whitewash to close up the pores of the skin, and cover up its imperfections, but is a **SKIN FOOD**, it clears the skin leaving it soft, smooth, and beautifully transparent.

PEACH BLOOM is absolutely harmless, but it brings about the required results quickly and retains them permanently. It removes the roughness, pimples, black heads, freckles, and tan.

PEACH BLOOM having a tendency to feed the pores will cause the outer cuticle of the skin thereby preventing and removing wrinkles. It is invaluable for chapped hands. Sold by druggists, and sent on receipt of price, \$1, by addressing **WELTON MEDICAL CO.**, 184 Adelaide Street West, Toronto. For sale in Napanee by **Detlor & Fullerton, Druggists**.

appears that the plate was carried in the old reservation near Albany, and remained for some years, or until the Mohawks became settled in the reservations near Brantford and on the Bay of Quinte. Then a party was sent back, resurrected the plate and brought it safely to Canada. One-half of the communion set was left with the Mohawks of the Grand river, and the other half with the Mohawks of the Bay of Quinte. For a period of 22 years prior to last July the plate was safely kept by Mrs. J. W. Hill, a granddaughter of the celebrated chief, Capt. Brant, whose mother was the original custodian, having kept it from the time of its arrival in Canada to her death. The custodian was required to take the communion plate to the church on communion days. Many years ago Archdeacon Stewart who took great interest in the Mohawks presented them with a full communion set, after which the Queen Anne plate was used only on state occasions. Last July the bishop visited the reserve on his confirmation tour, and, this being regarded as a state occasion, the missionary Rev. G. A. Anderson, sent word to Mrs. Hill that he would like to have the Queen Anne plate brought to the church, which was accordingly done in compliance with the old custom. A day or two after the event Mrs. Hill sent to the clergyman's house to have the plate returned. He refused to give up the plate, on the ground that he was the proper custodian thereof. This action on the part of the missionary produced indignation among Mrs. Hill's friends on the reserve, and resulted eventually in a large number of the church communicants refusing to attend his ministrations, and in dividing the Mohawks into two parties, some siding with the missionary and others with Mrs. Hill. Finally the Indian department stepped in, and proposed certain regulations in reference to the custody of so valuable and historic a relic. Among others, the regulations vested the appointment of the custodian with the council of chiefs, and required that the custodian should give bonds for the safety of the plate, and also should provide a suitable fireproof safe in which to keep it. Thereupon the council of chiefs by a majority vote appointed Mrs. Hill the custodian. Upon this she offered a bond, which was accepted by the department, and provided herself with a safe as required by the regulations. When all this was done the Indian department instructed the local agent to go to the clergyman and get the plate, and to give it back to Mrs. Hill's custody. This the clergyman refused to do. Mrs. Hill's friends then petitioned the bishop to divide the reserve into two parishes, as there are two churches on the reserve, and to appoint a new clergyman to minister to those who refused longer to worship under the ministrations of the old missionary. This petition, as required by the church laws, was referred to Archdeacon Jones at Brockville, who called a conference of the contending Mohawks to meet him in Napanee on the 8th inst. At this conference the Archdeacon strongly urged the parties to settle the matter amicably, and strongly advised the missionary to return the plate forthwith to Mrs. Hill. At last he succeeded in persuading the Mohawks to bury the hatchet, on Rev. Mr. Anderson and his friends promising to return the plate to Mrs. Hill the next day, the friends of Mrs. Hill promising on their part if this were done to try and persuade their friends to attend church again under Mr. Anderson's ministrations, and thus amicably end the whole matter. For some reason or other Mr. Anderson and his friends failed to return the plate the next day to Mrs. Hill as agreed upon, but kept it until the next week, when it was returned, not to Mrs. Hill, but to the Indian agent, who, however, promptly delivered it over to Mrs. Hill. Her friends allege that Rev. Mr. Anderson and his friends, having broken the agreement made before Archdeacon Jones and Judge Wilkinson, who on the invitation of the Archdeacon, sat with him in the conference, will now not be satisfied with anything short of the removal of Rev. G. A. Anderson entirely from the reservation.—Globe.

I PAY THE MARKET PRICE.—I want all your dried apples, and will pay the market price in cash. I am paying 4½ cents at present, but this price cannot be guaranteed for any length of time. Bring them along right off and receive this good price.—**MILES S. PLUMLEY.**

and for the Public Schools were read by the clerk. Referred to Finance committee.

A letter was read from W. S. Herrington on behalf of Mrs. Wheeler, asking for \$100 compensation, the lady having fallen on the slippery sidewalk in front of Lockwood's store. Referred to Street Committee to report.

Mr. Jas. Parks appeared before the council asking for assistance. Referred to Poor and Sanitary Committee with power to act.

Dr. Ward reported for Finance Committee, finding payment as made by the Gibbard Furniture Company for wages as amply sufficient to cover engagement to the town.

Mr. Symington reported for Street Committee several little expenditures on the street.

Mr. Anderson reported for Printing Committee, recommending payment of \$20, account of Wm. Templeton.

Mr. Daly reported for Market Committee, expenditure 20 cents for cutting ice round pump.

Mr. Stevens reported for Town Property Committee \$57.50 expended to date.

The mayor arrived at this point in the proceedings and took the chair.

Mr. McAllister reported for Poor and Sanitary committee, total expenditure since last meeting, \$47.50; to date, \$154.

Mr. Pringle reported for Police committee, expenditure to date, \$20.75.

Dr. Ward reported as to having received a letter from the town solicitor as to remission of school taxes on exempted property, holding all taxes were included in the remission.

Couns. Warner and Anderson moved that the Streets committee be instructed to advertise for tenders to be presented to the clerk and opened at the first regular meeting in April for the following:—For watering the streets during the coming season as in former years, according to the provisions of a petition, to be presented, at per day; for repairing plank walks during the season horse, wagon and man, when required, at per day; for lumber to be used by corporation during the season; 3 inch, 2 inch, 1½ inch plank, 1st pine, 2nd hemlock; for hardware to be used by corporation during season, 3, 4, 5, and 6 inch nails.

A discussion took place as to the construction of sidewalks, whether granolithic walks or board walks should be laid down on Dundas street. It was the opinion of the council that granolithic walks should be laid down if property owners would pay half of the expense. A walk has to be laid down on Dundas street, some time this year, and it was mooted that a committee should be appointed to interview the parties interested. A committee was eventually nominated consisting of Councillors Ward, Anderson, Symington and Carson.

\$40 was ordered placed in the hands of the Poor and Sanitary committee.

ACCOUNTS.

Robt. Light, lumber, \$3.87.—Paid.

Napanee Water and Light Company, \$25.5.—Paid.

McCumber, shoveling snow, 25c.—Paid.

A. W. Grange & Bro., supplies, \$17.27.—Referred.

J. C. Huffman, auditing, \$20.

R. G. Wright, auditing, \$20.—Referred.

Mr. Symington, for J. L. P. Gordanier, complained of dog tax, \$2, as he was a non-resident and did not own any dog. Referred to Finance committee to report.

Moved by Couns. Stevens and Warner, and carried, that the collector's time for returning the roll be extended until next meeting of council.

Council adjourned.

— Sweet Floridas and all fruits in season at Davis.

TOBACCO AND INTOXICANTS.

Mrs. Sarah Kipple, of Scranton, who is 99 years of age, has smoked since she was 20.

The amount of tobacco chewed in the United States last year was eighty-five tons.

Intoxicating liquors have been made from the sap of the birch, the willow, the poplar, and the sycamore.

An Adrian, Mich., man quit smoking this year, and in just one week's time he asserts that he had gained four pounds of flesh.

It is said that the people of Tokio recover quickly from surgical operations because they consume but little alcohol and eat but little meat.

Sir Andrew Clark, the general physician in the largest hospital in London, says that seven out of every ten persons treated there owe their ill-health to the use of intoxicants.

ated an electrical device designed to automatically play banjos, mandolins, guitars and harps.

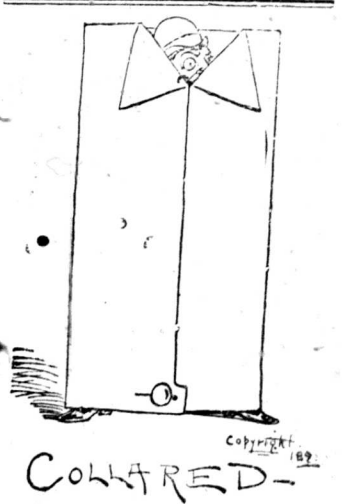

One of the unsolved problems of electrical engineering seems to be the designing of a successful lightning arrester for trolley roads.

Sidewalk showcases which formerly were left in partial darkness after night-fall are now quite commonly illuminated with incandescent electric lights.

M. Chappuis' proposed electric railway through the Simpson pass is estimated to cost \$8,000,000 and it would greatly reduce the distance between Italy and northern Europe.

Mr. W. H. Preece, the well-known electrician, has succeeded in sending a telephonic message from the shore of the Bristol channel, near Cardiff, to the island of Flatholm, three miles off, without the intervention of a connecting wire.

An electric generator weighing 33,000 pounds is to be installed in a railway power house in Ottawa. It is to furnish current to heat the entire premises, as well as help operate the trolley line, and is the largest ever brought into Canada. The power house will be the first station heated in this manner in the world.

Solomon had his own ideas on the subject of apparel, and while he knew just what he was about when he arrayed himself in purple, he was especially sound on the subject of fine linen. There was a time when linen was within the reach of only those of ample means; now those who cannot purchase it must be poor indeed. Can there be any possible excuse for a wardrobe poorly replenished in this respect, when you can buy a half dozen shirts for the price that old Sol paid for one single shirt.

We make them to measure or sell them ready to wear and you get a good fit in either case. We have just opened a range of the latest styles in English collars, and a big range of white and colored shirts for Spring. See us for your Spring shirts and collars.

McAlister & Co

P.S.—Opened this week five cases new suitings and overcoatings.
